Mini Plus PT Classrooms

Note: The podiums in SHE554/556/558/560/662/664 are laid out differently than the other Mini Plus podiums on campus.

Mini Plus Presentation Technology classrooms are designed for multimedia presentations. These rooms feature a podium, with multimedia equipment stored inside, and a ceiling mounted data/video projector. A touch screen or key pad on the podium provides basic control over the equipment installed in the room.

Mini Plus PT Classroom
