## ChemDraw Site license Software Installation

1.) Navigate to this website:

<https://informatics.perkinelmer.com/sitesubscription/Register.aspx?FlexeraAccountId=4163SL>

2.) If you are a new user, fill out the provided form. Your Ryerson email must be used in the “**Email address**” Field. If you already have an account, click the “**Existing user? Click here to login**” link at the top, log in and skip to step 5

3.) After registering, you will receive an email from Perkin Elmer in a few minutes. In the email, you will be provided with a link to activate your account and your username. This link is only available for 12 hours. Click the link, and fill out your email and password.

4.) Once account has been set, you can access the software by logging in to account using the following link:

<https://perkinelmer.flexnetoperations.com>

5.) Once logged in, you should be in the page for “List entitlements”. All available chemdraw programs are listed here. Select the program with the furthest expiration date (usually top most program) by clicking “Download now”. A “Download order” page will appear. At the top of the page, there will be a product activation code. Copy that code, you will need it later during the installation process. Under the “New Versions” tab, click “**ChemDraw Professional**”

6.) A number of files will appear under the “Files” tab, click the desired product to download. For windows machines, click the link that ends with “.exe”. For MAC, click the link that ends with “.dmg”. The numbers in the link may be different from the ones in the image depending on what the latest version of chemdraw is currently active.
