

Assessment of Awareness of Actions (Understanding & Appreciation): Appendix C

Assessment of the sexual behaviour and identification of the terms under which the relationship between the two individuals/residents will be supported should also include a determination of the resident(s) awareness of actions: the ability to understand and appreciate, to participate in a relationship. Lichtenburg (1997) and Lichtenburg and Strzepak (1990) suggest that the following questions be asked to identify the conditions and circumstances a relationship is supported to continue.

1. Resident's Awareness of the Relationship:

- a) Is the resident aware of who is initiating the sexual contact?
Yes___ No___
Comments:_____
- b) Does the resident believe that the other person is a spouse or partner?
Yes___ No___ Comments:_____
- c) Are they aware of the other's identity and intent? Yes___ No___
Comments:_____
- d) Can the resident state what level of sexual intimacy they would be comfortable with? Yes___ No___
Comments:_____

2. Resident's Ability to Avoid Exploitation:

- a) Is the behaviour consistent with formerly held beliefs/ values?
Yes___ No___
Comments:_____
- b) Does the resident have the capacity to say no (verbally or non-verbally) to any uninvited sexual contact? Yes___ No___
Comments:_____

3. Resident's Awareness of Potential Risks:

- a) Does the resident realize that this relationship may be time limited?
Yes___ No___
Comments:_____
- b) Can the resident describe how they will react when the relationship ends?
Yes___ No___
Comments:_____

Is the resident able to respond to questions adequately (verbally or non-verbally)?

Completed by:_____ Date:_____ Time:_____
