

Michael Maiello

Vice President, Energy
Storage Systems
Schneider Electric

Michael has been with Schneider Electric and APC for nearly 26 years. In that time, he has held various positions in engineering, engineering management and general management. Prior to leading the Energy Storage System initiative, he was Senior Vice President of the Home and Business Networks (HBN) Line of Business, overseeing the single-phase APC UPS business for Schneider Electric. Michael was also a Senior Vice President in the office of the CTO.

Michael holds both Masters and Bachelor Degrees in Electrical Engineering from Brown University.
