

“Join us in building Careers and shaping Experiences Beyond the Box”

About Us

At Atlantic Packaging, every box tells a story and yours begins here. As a proudly Canadian-owned company with over 80 years of excellence in the corrugated packaging industry with operations within North America (Ontario, Quebec and United States), we're committed to sustainability, customer excellence and community impact. Since 1945, we've supported local jobs and built a legacy of trust with our clients and team members. At Atlantic, your ideas matter, your growth is supported and your work makes a real impact.

The Opportunity

The Corrugated Sample Maker is responsible for operating the Kongsberg cutting table, producing cut samples, assembly, fit review and when needed arrangement of courier / shipping requirements.

The Corrugated Sample Maker reports to the Structural Design Manager. Working independently operating the cutting table, while supporting the full Design team.

What you'll do

- Upload CAD/vector box designs into the machine software for execution. This includes evaluating the corrugated material and board sheet size to maximize the layout and cutting time.
- Select and install proper oscillating knives, creasing wheels, or drawing pens based on board thickness and the job at hand.
- Speed, pressure, and cutting depth parameters, utilizing CCD cameras for precise registration on corrugated board.
- Material knowledge, understanding different grades of corrugated board and how they are implemented.
- Troubleshooting, blade replacement, table mapping, preventive maintenance / cleaning.
- Maintaining inventory control of corrugated board sheets. This is specifically necessary against the number of orders to cut, volume and if multiples samples are required.
- Inspect finished samples for clean cuts, accurate folding lines, and correct structural dimensions.
- Upon assembly of the samples or stacking of multiple flat samples for machine assembly at client site, package samples as needed for courier or other shipment requirements.
- Alert Sales team members of packages being ready and ensuring where signs offs are required appropriate labeling is attached for objective evidence of approval.

What you'll bring

- Proven experience with Kongsberg cutting table or similar equipment.
- Proven software proficiency in ability to read technical packaging drawings and operate control software.
- Strong attention to detail and accuracy.
- Ability to work independently but also in a team setting.
- Communicate effectively with various teams.

- Proficiency in tracking open projects and executing list of requirements per day.

What We Offer

- Comprehensive health, dental and vision coverage (dependents included)
- Teamwork-focused culture with sustainability initiatives and social events
- A culture of appreciation through a point-based recognition
- Opportunities for advancement and internal movement
- Education assistance for continuous skill development
- Academic scholarships for employees' children
- Safety equipment and PPE support program
- Knowledge of advanced material considerations is an asset.

Inclusion and Accessibility

Atlantic Packaging is committed to fostering an inclusive, accessible and respectful environment for all candidates. If you require accommodation during the hiring process, please contact our Talent Acquisition team—we're here to support you.

We sincerely thank all applicants for their interest in joining Atlantic Packaging. While we appreciate the time and effort invested, only those selected for an interview will be contacted.

Please Note:

Candidates who are 18 years or older are required to complete a criminal and background check. Details will be provided through the application process.

Hiring Range : \$54,000 to \$60,000 per year. A candidate's experience and knowledge may be factored into the pay a candidate receives for this position. This posting is for a new vacancy.
