

“Join us in building Careers and shaping Experiences Beyond the Box”

About Us

At Atlantic Packaging, every box tells a story and yours begins here. As a proudly Canadian-owned company with over 80 years of excellence in the corrugated packaging industry with operations within North America (Ontario, Quebec and United States), we’re committed to sustainability, customer excellence and community impact. Since 1945, we’ve supported local jobs and built a legacy of trust with our clients and team members. At Atlantic, your ideas matter, your growth is supported and your work makes a real impact.

The Opportunity

We are seeking a Corrugated Packaging Specialist to join our team.

The Corrugated Packaging Specialist reports to the Corrugated Structural Manager, the successful candidate is responsible for the development of corrugated products which supports the effective use of machine assets both at Atlantic Packaging and its client base. Deep hands-on experience in structural packaging is key. Corrugated Packaging Specialist works well in a group and individually to create the design of complex corrugated products, provide alternative and / or alternative suggestions. This role requires a strong balance of creativity, technical expertise, and operational knowledge to ensure designs are production-ready and optimized for both protection and presentation

What you'll do

- Support the design of structural packaging and complex corrugated boxes, trays and other die-cut items / elements.
- Develop intricate dyelines optimized for Esko-enabled digital cutting and prototyping tables (Kongsberg preferred).
- Prototype, test, and refine packaging structures independently to ensure fit, function, and manufacturability.
- Collaborate closely with Production, Sales, Estimating, and Technical teams to align designs with board combinations, assembly, and production constraints.
- Support the design team with guidance on best practices and ensure design quality across projects.
- Stay current on packaging trends, materials, and technologies to innovate solutions.

What you'll bring

- 3+ years of experience in structural packaging design, preferably with corrugated products.
- Advanced proficiency in CAD table operations and experience with Esko-enabled cutting/prototyping tables (Kongsberg preferred).

- Strong working knowledge of ArtiosCAD or equivalent Esko software.
- Proven ability to design production-ready prototypes and dyelines, optimized for digital corrugated and mid to high volume production.
- Understanding of structural engineering principles for corrugated products; distribution, product retention, and assembly efficiency (automatic and / or manual).
- Strong communication and collaboration skills.
- Knowledge of Microsoft products is a benefit.
- Background in premium packaging or other corrugated related fields are an asset.
- Experience in presenting design solutions to clients an asset.

What We Offer

- Comprehensive health, dental and vision coverage (dependents included)
- Teamwork-focused culture with sustainability initiatives and social events
- A culture of appreciation through a point-based recognition
- Opportunities for advancement and internal movement
- Education assistance for continuous skill development
- Academic scholarships for employees' children
- Safety equipment and PPE support program
- Knowledge of advanced material considerations is an asset.

Inclusion and Accessibility

Atlantic Packaging is committed to fostering an inclusive, accessible and respectful environment for all candidates. If you require accommodation during the hiring process, please contact our Talent Acquisition team—we're here to support you.

We sincerely thank all applicants for their interest in joining Atlantic Packaging. While we appreciate the time and effort invested, only those selected for an interview will be contacted.

Please Note:

Candidates who are 18 years or older are required to complete a criminal and background check. Details will be provided through the application process.

Hiring Range : \$60,000 to \$70,000 per year. A candidate's experience and knowledge may be factored into the pay a candidate receives for this position. This posting is for an existing vacancy.
