

EVENING PRINT TECHNICIAN/OPERATOR

Blanka is a Canadian-based tech company disrupting the e-commerce space with our custom platform, private-label and logistics solutions. We are looking to bring on a Print Technician/Operator to help us realize our vision. This role will primarily operate during evenings from 2pm - 10pm in Vancouver, BC. Initially there will be shifts between 9am - 5pm required for training purposes.

We are looking for an eager, creative, and detail-oriented digital guru with print experience to join our amazing company. You will be part of a growing production team that produces our stunning custom-branded products in-house. As a print technician with a good understanding of graphic design, you will operate our commercial printers to produce high quality products, under the guidance of Blanka's Print Production Manager.

The main objective of this role is to efficiently produce custom-branded products with our state-of-the-art printers, carefully following prescribed procedures and processes. In this innovative and exciting role you will get to learn more about print design processes and flex your creative muscles in addition to seeing the fruits of your labour come to life as you print. If you're excited about joining a start-up at the ground floor, and working with a team of values-driven, seasoned founders, then keep reading!

YOU'RE EXCITED ABOUT THE ROLE BECAUSE...

- You will maintain the highest level of quality in your work from digital to print and in between
- You will carefully process print orders, keep detailed records, and troubleshoot files, systems, and equipment as needed
- You will work with state-of-the-art printers to produce stunning customized products
- You will learn to find efficiencies in our production processes
- You will apply knowledge and experience to process technically difficult files or issues during the printing process and help troubleshoot those to find effective solutions
- You will provide outstanding work you will be proud of

WE'RE EXCITED TO HAVE YOU BECAUSE...

- You have a keen eye for visual design with exceptional attention to detail
- You are very responsible to carefully inspect and evaluate the quality of printed products before delivery
- You are experienced in the key programs within the Adobe Creative Suite with a minimum of Photoshop and Illustrator
- You have the ability to work both independently with guidance from your manager and collaboratively with teams as needed
- You are never satisfied with the status quo because you have insanely high standards
- You are always looking for ways to learn and develop your skill-set, and you have a strong desire to receive 1:1 coaching and mentorship

- You have the ability to take feedback, and action necessary changes quickly and effectively
- You have excellent time management and planning skills
- You are an early adopter of tools and technologies that enable you to create best-in-class content
- You have commercial printing experience
- You are familiar with e-commerce
- You have photography and videography experience
- You have animation experience
