

Do you thrive in a customer focused, fast paced environment?

Are you a stickler for details and enjoy critical thinking?

If so, Autumn Graphics Ltd has the ideal opportunity for you!

We are looking for the best candidate to join our expanding team in our new Mississauga production location!

Autumn Graphics is a market leader in the pre-media industry. We have been providing exceptional pre-media products, services, and support throughout North America and beyond, since 1982. Autumn Graphics provides class-leading pre-media production, plate production, brand management, 3D packaging development, print production technical services, color management services, and packaging life cycle workflow tools to consumer product companies, converters, printers, and agencies.

You will be part of a team, providing Flexographic platemaking functions to support the production needs of our customers.

The Successful candidate will be responsible for producing photopolymer printing plates for the Flexographic Printing industry, from digital file inspection through to processing plates and shipping.

Candidates should have excellent attention to detail and understanding of QC processes.

Multi-tasking is mandatory with this position.

Flexo Plate Maker will be performing final QC inspections, packaging plates and shipping them to customers within the timelines established.

Previous experience with manufacturing Flexographic printing plates would be considered valuable, but not mandatory.
