THE ROLE:

We're searching for a talented and passionate Pre-media Specialist – someone who thrives on pushing boundaries and making a tangible impact. This is an opportunity to dive deep into advanced workflows, becoming the vital link between our valued clients and our cutting-edge production team. Ideal for prepress operators, graphic designers or production artists, you'll master the art of assessing, reporting, and preparing production-ready files for a diverse range of print projects, including graphic production art and outsourcing. Your ability to adapt is your greatest strength as you cross-train in digital, litho, large format, and data merge outputs, harnessing powerful automation to propel your technical skills forward. This fast-paced role keeps you at the helm of technology, ensuring every day is exciting and rewarding.

WHAT YOU WILL DO:

Conceptual design (10%) – for clients and internal projects. This may expand through progress.

Project coordination (20%) – organizing, reporting, and working with sales, CSRs and clients.

Production art (30%) – file fixes, adjusting or creating assets using brand libraries.

Prepress workflows (40%) – preflighting, generating print ready PDF proofs and automated impositions for mainly large format digital, cross-training as you progress.

Experience in a similar job role preferred. We provide industry leading workflow and application training as well as mentorship in the role.
