Intergenerational Advisory Committee HIGHLIGHTS

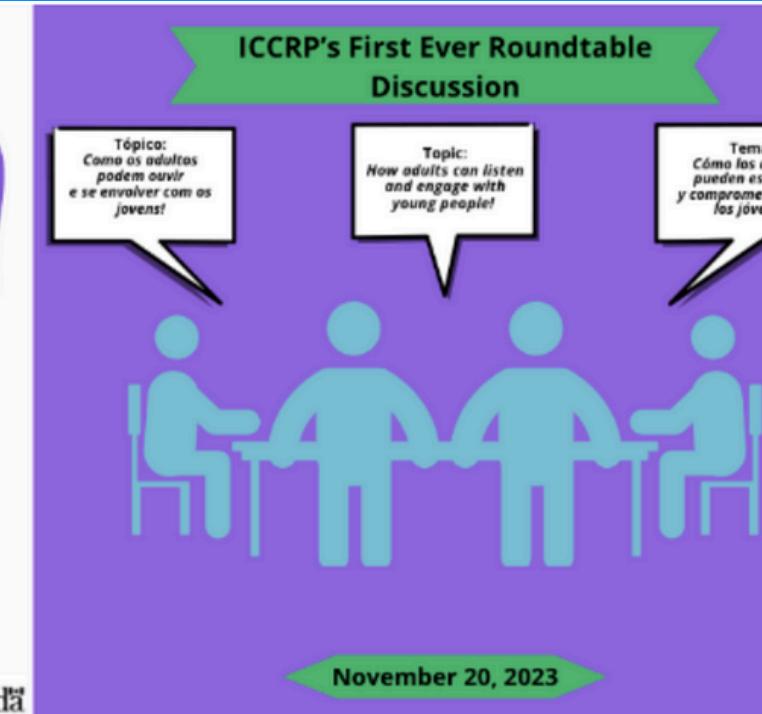

First Virtual Meeting

Being on a virtual environment with young people from all over the world was scary, but was the greatest highlight as it formed many fruitful relationships!

Roundtable Discussions

Our first ever roundtable showed us the reality of the meaning behind the term “intergenerational”. We will forever appreciate and cherish the dynamic conversations and the responsibilities we held in bringing life to the roundtable discussions.

In-Person Conference

The In-Person Conference gave us the ability to meet our peers and adult persons physically, after numerous months of amazing virtual experiences. Additionally, it enabled us to hold spontaneous conversations that enhanced deep connections and sparked creative and sustainable solutions for child and youth rights disparities in our home country. Not to mention the incredible Canadian weather that we experienced!

THANK YOU ICCRP!
