CURRICULUM ADVISING USE ONLY			
<input type="checkbox"/> Approved	Signature: _____	Date: _____	
<input type="checkbox"/> Denied	Comments: _____		

DEFINITIONS

1. A Course Exception allows an undergraduate student to substitute one Toronto Metropolitan course for another within their program curriculum. A Course Exception is not a state-ment of equivalency between two courses: each application is reviewed independently from any other - it is a single course Substitution or Directive assigned for an individual student.
2. A Course Substitution determines whether a course, which is not part of the normal curriculum requirements of a program, can be used in place of a specific course in the program's normal curriculum. It does not replace any prerequisite/co-requisite requirements for enrollment into courses.
3. A Course Directive determines whether a course which is not part of the normal curriculum requirements of a program can be used for credit for a non-specific course in a prescribed group within the program's normal curriculum.

RULES AND REGULATIONS

1. Students enrolled in an Undeclared Program/Plan (Major) are *not eligible* to apply for a Course Exception (Substitution/Directive).
2. Application decisions are *Not Valid* until confirmed by Curriculum Management: Curriculum Advising Office, even if the course has already been successfully completed by the student.
3. The Substitute course must be of equal value as the course it is replacing e.g. one single-term (one count) course *cannot* be substituted for a two-term (2 count) course.
4. Only degree-level courses can be used to fulfill degree-level course requirements.
5. Course Exceptions are not applicable toward satisfying the requirements of a Minor.
6. A Course Exception is used to satisfy the curricular requirement for graduation only. Approval of a course exception *does not* change your *CGPA*.
7. GPA ADJUSTMENTS: The original, final course grade can be removed from the program GPA calculation with approval. Complete the GPA Adjustment Form and submit no later than the final date to add a course for the term in which the GPA Adjustment applies.

INSTRUCTIONS

1. Complete personal information and Parts 1-3.
2. Ensure that the course you wish to use as a course exception meets all requisite requirements and does not violate any program restrictions (see the TMU Undergraduate Calendar for information).
3. Obtain the appropriate approvals/signatures:
 - * Courses that are to be used to fulfill a Liberal Studies Requirement, must have the approval/signature of the Liberal Studies Co-ordinator, Faculty of Arts.
 - * A request to use a specific course to replace another specific course within a program (Course Exception - Substitution) must have the approval/signature(s) from the teaching department for the course that will be used as the substitution, as well as from your program.
 - * A request to use a course to fulfill an elective requirement in your program must have the approval/signature of your program.
4. Submit completed form with required Department approval/signatures to the ServiceHub, POD 150 and retain a copy for your records. Allow **a minimum of five business days from the time your request has been evaluated by the teaching and/or program departments for processing**. Please note that processing times may be longer during peak periods.
5. Authorized and confirmed Course Exceptions will be reflected on your Academic Advisement Report (AAR) which can be generated and viewed via MyServiceHub (my.torontomu.ca > Student Centre > other academic > Academic Requirements > View Advisement Report). Application decisions that are not approved (they are denied) are emailed to your @torontomu email account.
