

Psychology Graduate Program

Graduate Faculty Supervisors Reviewing Applications for Fall 2026 Admission

Note that this list is updated continually through the Summer and early Fall, so feel free to check back for updates.

Faculty websites can be accessed via: <https://www.torontomu.ca/psychology/about-us/our-people/faculty/>

Name	Reviewing Fall 2026 files from Applicants to:	Research Interests
Martin M. Antony, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Anxiety and related disorders (e.g., panic disorder, obsessive compulsive disorder, social anxiety, phobias); dissemination and implementation of evidence-based psychological treatments; cognitive behavioural therapy; perfectionism.
Leslie Atkinson, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Attachment and psychopathology; developmental psychopathology; influence of genetics and environment on the development of stress physiology in infants and children.
Tara Burke, PhD	<i>Not reviewing files or accepting students for Fall 2026</i>	Social psychological processes associated with legal decision making, alibi evidence, jury dynamics, impact of pretrial publicity, police and juror beliefs about suspects and witnesses, prejudice in the courtroom.
Colleen Carney, PhD, CPsych	Clinical Psychology	Insomnia; mood disorders; rumination; optimizing postgraduate training outcomes; the relation between cognition and mood; cognitive behaviour therapy for insomnia; gender and sleep.
Stephanie Cassin, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Obesity; bariatric (weight loss) surgery; food addiction, eating disorders; binge eating; body image; cognitive behavioural therapy; motivational interviewing.
Becky Choma, PhD	Psychological Science	Socio-political ideology and intergroup relations, including psychological and affective predictors of liberal-conservative and authoritarian ideologies; political intolerance; support for democracy; collective action; and prejudice (e.g. sexism, Islamophobia).
Alyssa Counsell, PhD	Psychological Science	Scholarship of teaching and learning, statistical literacy, statistics attitudes, statistics anxiety, psychological measurement, open science, research methods, structural equation modeling.
David M. Day, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Development and course of antisocial and delinquent behaviour; crossover youth; program evaluation; children's mental health, particularly externalizing disorders.

Sarah Dermody, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Alcohol and nicotine use and addiction risk factors and treatment; sexual and gender minority substance use and intervention; research designs include alcohol and nicotine self-administration studies (laboratory-based), survey-based and ecological momentary assessment, and secondary data analysis research.
Jason Deska, PhD	Psychological Science	How do stereotypes about social categories (e.g., race, gender, sexual orientation) and impressions based on individual characteristics (e.g., facial appearance, body shape, disability) create and sustain inequality in health, law, and more?
Michelle Dionne, PhD	<i>Not reviewing files or accepting students for Fall 2026</i>	Psychosocial variables that impact eating, body image and women's participation in sport and exercise.
Iloradanon Efimoff, PhD	Psychological Science	Relationships between Indigenous and non-Indigenous people in Canada; critical historical education; education as a tool to reduce prejudice; prejudice reduction; Indigenization; reconciliation in Canada; Indigenous identity
Caroline Erentzen, PhD	Psychological Science	Psychology and law; sexual violence; male victims; stranger sexual harassment; intersectionality; wrongful convictions; false accusations
Alexandra J. Fiocco, PhD	Clinical Psychology & Psychological Science	The StAR Lab examines biopsychosocial factors associated with cognitive health and wellbeing in later adulthood, and intervention strategies to mitigate the effects of chronic stress in wellbeing.
Todd Girard, PhD	Clinical Psychology & Psychological Science	Clinical neuroscience, cognitive psychopathology, and cognitive pharmacology, particularly particularly regarding memory, psychosis, fMRI, and related areas.
Alasdair Goodwill, PhD	<i>Not reviewing files or accepting students for Fall 2026</i>	Forensic psychology, criminology, behavioural investigative advising, offender profiling, geographical profiling, threat assessment, terrorism, investigative and risk decision making, advanced statistics.
Maria Gurevich, PhD	<i>Not reviewing files or accepting students for Fall 2026</i>	Constructions of gender, sexuality and identity; critical psychology; feminist epistemologies and methodologies; qualitative research.
Tae Hart, PhD	<i>Not reviewing files or accepting students for Fall 2026</i>	Clinical health psychology; quality of life in colorectal cancer, hereditary cancer and colorectal diseases.
Trevor Hart, PhD, CPsych	Clinical Psychology & Psychological Science	Clinical trials to prevent HIV and sexually transmitted infections (STIs) and to promote mental and sexual health, HIV/STI risk factors, male sexual functioning, sexual health, substance use, psychology of gay and bisexual men and other sexual minority individuals, community-based research, health psychology.

Behrang Keshavarz, PhD (Adjunct Faculty)	Psychological Science	Human factors in virtual environments, with particular emphasis on side-effects (cybersickness), neurocognitive and behavioral aspects of self-motion perception (vection), and driving safety in younger and older adults. Dr. Keshavarz is a Senior Scientist at the KITE Research Institute and Toronto Rehab-UHN. Website: http://mive.ca , www.kite-uhn.com
Andrew (Hyounsu) Kim, PhD, CPsych	Clinical Psychology & Psychological Science	Addictive disorders, including behavioral addictions (e.g., gambling, gaming), comorbidity of addictions and mental health (i.e., concurrent disorders), evidence-based treatment and predictors of concurrent disorders, transdiagnostic mechanisms (e.g., emotion dysregulation, impulsivity, coping skills) of addictions; sports betting (impact of advertisements, liberalization and in-play sports betting; recovery processes of addictions including addiction substitution.
Naomi Koerner, PhD, CPsych	Psychological Science	My current interests are in: anxiety disorders; chronic worrying; intolerance of uncertainty; deficient safety processing and interoceptive functioning; psychological safety.
Ronda Lo, PhD	Psychological Science	Cultural psychology, culture and cognition, gene-culture interactions, culturally minoritized experiences, intercultural relations, perceptions and experiences of cultural diversity, media-based solutions for improving intercultural relations.
Lili Ma, PhD	Clinical Psychology & Psychological Science	Children, social-cognitive development, social perception, social learning, credulity, prosocial behavior.
Karen Milligan, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Children, emotion regulation, executive function, maternal substance use, school-based mental health, treatment research.
Candice M. Monson, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Trauma recovery; PTSD; intimate relationships; cognitive-behavioural therapy; couple therapy; clinical trials.
Margaret Moulson, PhD	Psychological Science	Developmental cognitive neuroscience; infant perception and cognition; face perception; early experiences and development. Research methods: behaviour, eye-tracking, EEG.
Tisha Ornstein, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Neuropsychological impairment in pediatric and adulthood psychopathologies, including ADHD, OCD, and traumatic brain injury (TBI), with a focus on frontal striatal pathways, clinical phenomena, and activities of daily living; TBI related to cognitive deficits, pain disorders, mood and anxiety; emphasis on brain-behaviour relationships.

Brandon Paul, PhD	<i>Not reviewing files or accepting students for Fall 2026</i>	Auditory cognitive neuroscience, hearing science, cognitive decline and hearing loss, hearing loss and interpersonal communication, auditory attention and memory, speech perception, audiovisual perception, EEG, eye-tracking. Website: cognitivehearinglab.ca
Ryan Persram, PhD	Clinical Psychology & Psychological Science	Correlates and consequences associated with youth relationships; how positive and negative experiences with siblings, friends, and romantic partners, and the intersection between them, are implicated in youth well-being; the role contextual factors (e.g., family functioning, SES, culture) shape relationships and well-being. Lab Website: https://psychlabs.torontomu.ca/aspirelab/
M. Natasha Rajah, PhD	Clinical Psychology & Psychological Science	Cognitive neuroscience of episodic memory, aging and dementia prevention; the effect of sex, gender, and social determinants of health on memory & brain health across the adult lifespan, with a focus on midlife; menopause and women's brain health; methods: behaviour, multi-modal MRI, multiomics, multivariate statistics, computational neuroscience. Dr. Rajah is a Professor & Researcher at the Douglas Research Centre, Department of Psychiatry, Faculty of Medicine & Health Sciences at McGill University. Lab website: http://rajahlab.com/
Frank A. Russo, PhD	Psychological Science	Auditory cognitive neuroscience, music cognition, emotional communication, sensory-motor interactions, EEG, fNIRS, Brain Stimulation.
Moriah Sokolowski, PhD	Clinical Psychology & Psychological Science	Developmental cognitive neuroscience; learning and memory across the lifespan; numerical and mathematical cognition; math anxiety; academic achievement; cognitive and neural predictors of selecting and succeeding in science, technology, engineering and mathematical (STEM) disciplines; gender-gaps in STEM; bridging the gap between neuroscience and education.
Julia Spaniol, PhD	Psychological Science	Cognitive neuroscience of aging, with an emphasis on motivation-cognition interactions; curiosity, information seeking, and memory; human-AI interaction across the lifespan
Karl Szpunar, PhD	Clinical Psychology & Psychological Science	The cognitive neuroscience of memory and future thinking; attention, learning, and memory in educational settings; mind wandering; mental simulation of the future; collective cognition and collective action; public health; group dynamics in cognition.

Fiona Thomas, PhD, CPsych	<i>Not reviewing files or accepting students for Fall 2026</i>	Cross-cultural mental health, including the adaptation, delivery, and evaluation of mental health interventions for traditionally underserved communities; global mental health, particularly research with displaced communities (e.g., refugees, internally displaced persons); community based mental health; implementation science; PTSD; intergenerational trauma; perinatal mental health; immigrant and refugee mental health.
Kristin Vickers, PhD	<i>Not reviewing files or accepting students for Fall 2026</i>	Panic disorder and other anxiety conditions; stress reactivity and stress management; the relationship between anxiety disorders and eating disorders.
Stephen Want, DPhil	Psychological Science	Basic and applied questions regarding social comparisons; social interactions in video games; confirmation bias in internet searches; demand characteristics and reproducibility in psychological research.
Lixia Yang, PhD	Clinical Psychology & Psychological Science	Cognitive aging, particularly age-related changes in attention, executive functions, memory, and emotional processing; Training-induced cognitive plasticity in older adults, for example, the cognitive and neural benefits of physical and mental exercise in older adults; Cultural differences in cognitive processing; the relationship between social engagement, cognition and well-being in immigrants. Dr. Yang is currently examining the psychological impact of the COVID-19 in Chinese communities in Canada.
