

PARTICIPANTS NEEDED FOR RESEARCH STUDY

Reducing visually induced motion sickness with thermoregulation and vibration cues

We are looking for 96 volunteers to participate in a funded study on how to reduce the sensation of motion sickness when using visual displays

Eligibility criteria:

- Between **18 and 49 years** of age
- **Healthy** (no history of stroke, active vestibular disorders, disabling musculoskeletal disorder, epilepsy, acute psychiatric disorder, and/or a diagnosis of dementia or mild cognitive impairment, no pacemaker or similar medical device)
- Single test session (**approx. 60-90 min**) at KITE-Toronto Rehab Institute

For more information, please contact:
