

OMSAS Disability-based Consideration for GPA Changes

You can use this form to request academic consideration. Not all requests will be granted. For MCAT and Casper considerations, contact AAMC and Acuity Assessments (respectively) for exam accommodations.

Answer each of the following questions. Be as specific as possible.

1. What is the nature of your disability and when was your disability diagnosed? You may provide a specific diagnosis or describe the nature of your disability, including the impact your disability has had on your learning. (50 words)

2. Specify the academic consideration you are requesting. Note which semester(s) and/or year(s) were affected by a disability that was not accommodated. (50 words)

3. Did you apply for and/or receive accommodations (formally, through your school's Accessibility Services, or informally, through a professor or course director) during the stated periods you are requesting consideration for? If yes, what were those accommodations? If no, why did you not request or receive accommodations? (50 words)

4. Which courses, if any, did you complete **with** accommodations in place after your disability was recognized or diagnosed? (50 words)

5. How have you adapted to and/or overcome your challenges and what is your plan to ensure success in the study and practice of medicine? (50 words)

We will consider only complete applications with appropriate documentation.

All decisions are final. Feedback will not be provided, and decisions cannot be appealed.
