# Progress Indicators and Related Statistics

**OCTOBER 2013** 

# **Table of Contents**

Introduction			
	Table	A: Progress Indicators and Strategic Priorities	iix
Indicator 1:	Appli	cations and Entering Averages	1
Indicat	or 1a:	Ratio of applications (all choices) to registrants	2
Indicat	or 1b:	Mean entering average of newly-admitted students registered	
		in first-year level on 1 November who were admitted directly	
		from an Ontario secondary school	3
Indicat	or 1c:	Percentage of newly-admitted students registered in first-year	
		level on 1 November who were admitted directly from an Ontario	
		secondary school with an entering average of 80% or higher	4
Relate	d Statis	tics for Indicator 1:	
		Headcount	5
		Percentage share of headcount	6
		Percentage from Ontario secondary schools	7
		Percentage from other universities	8
		Percentage from Colleges of Applied Arts and Technology (CAATs)	9
		Percentage female	10
		Percentage male	11
		Percentage from City of Toronto	12
		Percentage from Greater Toronto Area (GTA)	
		Percentage from other Ontario municipalities (outside GTA)	14
		Percentage from other provinces (outside Ontario)	
		Percentage paying international fees	16
Indicator 2:	Enrol	ment in Part-time Programs and Continuing Education	17
Indicat	or 2a:	Fiscal full-time equivalent enrolment (FFTE) in part-time programs;	
		Annual growth rates for fiscal full-time equivalent enrolment (FFTE)	
		in part-time programs	18
Relate	d Statis	tics for Indicator 2a:	
		Headcount	19
		Percentage share of headcount	19
		Percentage female	20
		Percentage male	20
		Percentage from City of Toronto	21
		Percentage from Greater Toronto Area (GTA)	21
		Percentage from other Ontario municipalities	22
		Percentage from other provinces	22
		Percentage paying international fees	23
Indicat	or 2b:	Registrations in Chang School credit and non-credit courses	24
		Annual growth rates for registrations in Chang School	
		credit and non-credit courses	24
		Headcount enrolment in Chang School credit courses only by term	24
		Fiscal full-time equivalent enrolment (FFTE) in Chang School credit cours	ses only
		by term	24
Relate	d Statis	tics for Indicator 2b:	
		Gender balance in Chang School credit courses	25

Indicator 3:	Gradu	ate Employment Rates	. 26
Indicat	or 3:	Percentage of degree graduates employed in a field closely or	
		somewhat related to field of studies; Percentage of degree	
		graduates employed in any field	. 27
Indicator 4:	Experi	ential Learning	. 36
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2003/04)	. 37
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2004/05)	.38
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2005/06)	. 39
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2006/07)	. 40
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2007/08)	. 41
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2008/09)	. 42
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2009/10)	. 43
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2010/11)	. 44
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2011/12)	. 45
Indicat	or 4a:	Percentage of programs with formal experiential	
		component (2012/13)	. 46
Indicat	or 4b:	Percentage of students participating in formal experiential	
		activities [calculation deferred]	
Relate	d Statist	ic for Indicator 4:	
		Percentage of programs that provide opportunity for	
		international experience, and number of students	
		participating in international activities in a given year	
		[calculation deferred]	
Indicator 5:		tion and Graduation Rates	47
Indicat	or 5a:	Percentage of newly-admitted students registered in	
		first-year level on 1 November with a CLEAR academic	
		standing after one year	
Indicat		Graduation rates (MTCU methodology)	. 49
Indicat	or 5d:	Percentage of students retained in any year level of same	
la Past	= .	program after one year of study	. 54
Indicat	or 5e:	Percentage of students retained in any year level of same	
		program after two years of study	. 55
Indicat	or 51:	Percentage of students retained in any year level of same	
la Past	=	program after three years of study	
Indicat	or 5g:	Percentage of students retained in any year level irrespective of program after	
ء ـ د الم حرا	or Fb:	one year of study	5/
Indicat	บา อก:	Percentage of students retained in any year level irrespective of program	E 0
ladicat	or Ei	after two years of students retained in any year level irrespective of program	၁ၓ
Indicat	UI OI.	Percentage of students retained in any year level irrespective of program	ΕO
		after three years of study	Jy

Indicator 5j:	Retention and graduation rates for students in part-time programs	. 60
Indicator 5k:	Percentage of baccalaureate-seeking new students admitted directly from	
	secondary school retained in any year level of any program after one year of	
	study (CSRDE definition)	. 63
Indicator 51:	Percentage of baccalaureate-seeking new students admitted directly from	
	secondary school retained in any year level of any program after two years of	
	study (CSRDE definition)	. 64
Indicator 5m:	Percentage of baccalaureate-seeking new students admitted directly from	
	secondary school retained in any year level of any program after three years	
	of study (CSRDE definition)	. 65
Indicator 5n:	Graduation rates (CSRDE definition)	
	Size	
Indicator 6:	Distribution of class sizes	
maicator o.	Distribution of class sizes	. 00
Indicator 7: Schol	arships and Bursaries	66
Indicator 7: Schol	Scholarships and bursaries: total awards	
Indicator 7a:	Scholarships and bursaries as a percentage of total	. 70
mulcator 7b.	operating expenditures	70
Indicator 8: Librai	ry and Student Services	
Indicator 8. Librai	Library expenditures as a percentage of total operating	. 00
mulcator oa.		70
la dia atau Oh.	expenditures	. 70
Indicator 8b:	Library acquisitions as a percentage of library operating	70
	expenditures	. 70
Indicator 8c:	Library expenditures per fiscal full-time equivalent	
	student (FFTE)	. 70
Indicator 8d:	Student services expenditures per fiscal full-time equivalent	
	student (FFTE)	
	ty Background	. 71
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2002)	. 72
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2002)	. 73
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2003)	. 74
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2003)	. 75
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2004)	. 76
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2004)	. 77
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2005)	. 78
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2005)	. 79
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2006)	. 80
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	_
	educational background (October 2006)	. 81
Indicator 9a:	Percentage of total faculty with specified highest educational	

	background (October 2007)	82
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2007)	83
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2008)	84
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2008)	85
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2009)	86
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2009)	87
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2010)	88
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2010)	89
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2011)	90
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2011)	91
Indicator 9a:	Percentage of total faculty with specified highest educational	
	background (October 2012)	92
Indicator 9a Cont'd:	Percentage of faculty new hires with specified highest	
	educational background (October 2012)	93
Indicator 10: Schol	arly, Research and Creative Activity (SRC) Funding	94
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2000/01)	95
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2002/03)	96
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2003/04)	97
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2004/05)	98
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2005/06)	99
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2006/07)	100
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2007/08)	101
Indicator 10:	Externally funded and externally adjudicated number of grants	
	and dollar value of grants per Mode II faculty member and	
	per Mode I faculty member (2008/09)	102
Indicator 10:	Externally funded and externally adjudicated number of grants	

		and dollar value of grants per Mode II faculty member and	
		per Mode I faculty member (2009/10)	103
Indica	tor 10:	Externally funded and externally adjudicated number of grants	
		and dollar value of grants per Mode II faculty member and	
		per Mode I faculty member (2010/11)	104
Indica	tor 10:	Externally funded and externally adjudicated number of grants	
		and dollar value of grants per Mode II faculty member and	40=
	_	per Mode I faculty member (2011/12)	
Indicator 10b:		stage of faculty with funded SRC activity (2006/07 to 2011/12)	
Indicator 11:		nt to Faculty Ratio	108
Indica	tor 11:	Ratio of fiscal full-time equivalent enrolment (FFTE) to	400
Dalat	! ()	full-time equivalent faculty (FTE) by program	109

	Doctoral: Average time to completion	147

## Progress Indicators and Related Statistics — October 2013

## Introduction

This document updates the progress indicators and related statistics to include the most recent available data. It builds upon comments and suggestions that have been received following the presentation of prior editions and supports integrated academic planning at the university, faculty and departmental levels. Table A summarizes the progress indicators and their relationship to the University's strategic priorities: high quality, societally-relevant undergraduate and graduate programs; student engagement and success; learning and teaching excellence; scholarly, research and creative activity (SRC); and reputation.

When indicator data are viewed as a time-series, trends across the years can provide Ryerson's academic units with useful contextual information on progress towards achieving planned quality improvements and other objectives. The progress indicators and related statistics are intended to inform the academic planning processes at the university, faculty and departmental levels, and to enhance public accountability. The progress indicators:

- 1. Provide a focused information base to support planning processes.
- 2. Improve the University's ability to follow and project trends related to several critical goals and objectives, and enable the evaluation of progress.
- 3. Enable the University to refocus current information gathering efforts to better satisfy internal information needs.
- 4. Provide a statistical profile of Ryerson that will inform a broad audience about both who we are and where we are in our academic evolution.

The University Planning Office has developed the progress indicators and related statistics from a wide array of data sources. It determined specific indicator definitions, collected and analysed relevant data, and produced these progress indicators and related statistics in a manner that can also be applied to future years.

The progress indicators and related statistics continue to evolve and it remains the case that some indicators or measures are not available from existing data sources and would need implementation of new data collection to obtain the requisite information annually in a consistent manner. The University Planning Office welcomes comments and suggestions in order that the indicators can be improved as necessary to meet Ryerson's current and future needs.

The statistical data on the following pages supersede those of prior editions. Each indicator includes a brief description, the intended purpose of measurement, comments and issues, calculated data and any applicable related statistics. This edition incorporates the following changes:

- Two new undergraduate programs (Environment and Urban Sustainability; History) were first offered in 2012-13 and these now appear in applicable tables.
- The Department of Languages, Literatures and Cultures (formerly the Department of French and Spanish) is now shown under its new name.

Table A: Progress Indicators and Strategic Priorities

Table A. 1 Togress mulcan	Jis and	d Strategic Priorities  Indicator May Provide Useful Information For Assessing Progress on the

17 Masters Average time to completion	145	X	X			X			
17 Doctoral Completion rates	146	X	X			X			
17 Doctoral Average time to completion	147	Х	Х			Х			

# **Indicator 1: Applications and Entering Averages**

- a. Ratio of applications (all choices) to registrants.
- b. Mean secondary school average of all incoming first-year students from secondary schools.
- c. Percentage of incoming first-year students from secondary schools with averages of 80% or higher.

Direct Indicator of:	Related to:
<ul> <li>academically well-qualified student body</li> <li>societal need (student demand component)</li> </ul>	<ul><li>student academic success</li><li>program quality and success</li><li>quality of student experience</li></ul>

### Comments:

These indicators reflect Ryerson's image and profile, and that of its programs, among prospective students.

## Related statistics:

- percentage of applicants who are from Ontario secondary schools; from other universities; from Colleges of Applied Arts and Technology (CAATs)
- gender balance of student body
- percentage of students from outside the GTA; from other provinces; international.

## Issues:

In the case of Indicator 1a, data limitations do not permit calculation of qualified applicants as distinct from those who lack admission qualifications. For example, in some cases applications are withdrawn by students before they are assessed for qualifications. It is also true that some qualified applicants do not intend to attend Ryerson if accepted by another institution. As a result, total applications are shown instead of qualified applications.

- Notes

  1. Based on Ontario Universities' Application Centre (OUAC) data files.
- Applicants may submit multiple applications; all applications are shown in the table.
   Applicants may submit multiple applications; all applications are shown in the table.
   Data limitations do not enable applications to be disaggregated into qualified and unqualified categories (based on whether the applicant was found to have met minimum admission requirements).
   The number of registrants are based on Ryerson's Student Information System as of 1 November each year.
   Cells with "n/a" indicate the program did not exist.

Indicator 1b												
		Mean entering average of newly-admitted students registered in first-year level on 1 November who were admitted directly from an Ontario secondary school

- Notes

  1. Based on Ryerson's student information system and OUAC data files.
- 2. Includes only new, year 1 students admitted directly from high school (also referred to as "101s") as of 1 November.
- 3. Entering averages for individual students are unrounded and expressed to one decimal place. Students for whom an entering average was unavailable are excluded from the calculations.
- 4. The number of registrants are based on Ryerson's Student Information System as of 1 November each year.

  5. Cells with "n/a" indicate the program did not exist.

- Notes

  1. Based on Ryerson's student information system and OUAC data files.
- Includes only newly-admitted students in first-year level on 1 November.
   Entering averages for individual students are unrounded and expressed to one decimal place. Students for whom an entering average was unavailable are excluded from the calculation. An entering average of 80.0 or higher is required for inclusion in this table.
   The number of registrants are based on Ryerson's Student Information System as of 1 November each year.
   Cells with "n/a" indicate the program did not exist.

- Notes

  1. Based on Ryerson's student information system and OUAC data files.
  2. Educational source of students as reported to Ryerson by OUAC.
  3. Percentage of students transferring to Ryerson from other universities as shown in this table does not include those who transfer into upper years of Ryerson programs.
  4. Zero values are shown as blanks. Cells with "n/a" indicate the program did not exist.

- Notes

  1. Based on Ryerson's student information system and OUAC data files.
  2. Educational source of students as reported to Ryerson by OUAC.
  3. Percentage of students transferring to Ryerson from Ontario College of Applied Arts and Technology (CAAT) as shown in this table does not include those who transfer into upper years of Ryerson programs.
  4. Zero values are shown as blanks. Cells with "n/a" indicate the program did not exist.

1. Based on Ryerson's student information system and OUAC data files.

2. Zero values are shown as blanks. Cells with "n/a" indicate the program did not exist.

# Indicator 2: Enrolment in Part-time Programs and Chang School

- a. Number of FFTE in part-time programs.
- b. Total Continuing Education (CNED) registrations in credit courses.

Direct Indicator of:	Related to:
<ul> <li>accessibility</li> <li>provision of continuous learning</li> <li>role of part-time programs in providing continuous learning opportunities</li> </ul>	student learning experience

# Comments:

Trend lines for these variables must be interpreted carefully in light of external circumstances, particularly prevailing economic conditions that influence CNED and part-time program enrolments.

# Related Statistics:

Gender balance of CNED student body

- Notes

  1. Based on Ryerson's student information system for Spring/Summer, Fall, and Winter terms of each year shown.

  2. All Spring/Summer term enrolment is attributed to the part-time program in cases where a program is offered on both a full- and part-time basis.

  3. Excludes Continuing Education students.

  4. Faculty of Communication & Design has no part-time programs.

  5. Starting in 2009/10 Business Mgt students with three or more courses were automatically enrolled in the full-time version of a program. This accounts for the decrease in FFTEs over the previous year.

  6. Cells with "n/a" indicate the program did not exist.

- Notes:

  1. Based on Ryerson's student information system.

  2. The Faculty of Communication & Design has no part-time programs.
- 3. The headcounts of new registrants in part-time programs include students who have enroled in previous academic terms as Continuing Education students, but excludes students transfering to a part-time program from a full-time program.
- 4. Zero values are shown as blanks. Cells with "n/a" indicate that program did not exist.
- 5. Data for Midwifery and Nurse Practitioner are shown for 2005/06 and subsequent years.

- Notes

  1. Based on Chang School course registrations data.

  2. Prior to the 2005/06 year degree program students registered in CNED courses in the spring terms were reported as CNED students. As of 2005/06, degree program students were identified separately in the spring term. Consequently, there was a marked increase in CNED registrations by program students for the 2005/06 year and beyond.

 $\frac{Notes}{\text{1. Based on Ryerson's student information system.}}$ 

Indicator 3: Graduate Employment Rates  Graduate employment placement rates in the chosen field or a related field.						
Direct Indicator of:	Related to:					
societal need (employment)	currency and relevance of curriculum					

## Comments:

One of several indirect measures of program success, and one which we are currently required to report to the Ministry. Because of our applied mandate, to measure placement rates without reference to the student's chosen career field is inadequate. This variable must also be interpreted in light of economic trends.

## Issues:

This indicator is based on survey data and therefore must be interpreted carefully in light of the associated estimated error of the survey results at each level of disaggregation. The underlying survey is administered to graduates from degree programs only.

Notes

1. Based on disaggregation of MTCU Key Performance Indicator data: graduate survey.

2. Column headed "+/- Error" estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the employment rate in the sample is 100%. For example, between 82.7% and 86.9% of graduates from Ryerson's Class of 1999 found work in a field either closely or somewhat related to their field of studies two years after graduation.

<sup>3.</sup> Graduates who were not part of the labour force (e.g., enrolled in graduate school) are excluded from the calculation.

Notes

1. Based on disaggregation of MTCU Key Performance Indicator data: graduate survey.

<sup>2.</sup> Column headed "+/- Error" estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the employment rate in the sample is 100%. For example, between 80.7% and 86.5% of graduates from Ryerson's Class of 2001 found work in a field either closely or somewhat related to their field of studies two years after graduation.

3. Graduates who were not part of the labour force (e.g., enroled in graduate school) are excluded from the calculation.

- Notes

  1. Based on disaggregation of MTCU Key Performance Indicator data: graduate survey.

  2. Column headed "+/- Error" estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the employment rate in the sample is 100%. For example, between 86.0% and 91.1% of graduates from Ryerson's Class of 2005 found work in a field either closely or somewhat related to their field of studies two years after graduation.
- 3. Graduates who were not part of the labour force (e.g., enrolled in graduate school) are excluded from the calculation.

- 1. Based on disaggregation of MTCU Key Performance Indicator data: graduate survey.
- Based on disaggregation of MTCU Key Performance Indicator data: graduate survey.
   Programs are excluded from the table when no students respond to the survey.
   Column headed +/- Error estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the employment rate in the sample is 100%. For example, between 86.8% & 89.8% of graduates from Ryerson's Class of 2009 found work in a field either closely or somewhat related to their field of studies two years after graduation.
   Graduates who were not part of the labour force (e.g., enroled in graduate school) are excluded from the calculation.
- 5. Excludes diploma programs because the underlying questionnaire was administered to degree graduates only.
- 6. "n/a" indicates that no graduates responded to the survey.

# **Indicator 4: Experiential Learning**

- a. Percentage of programs with formal experiential component, including co-op, internship, work/field/clinical placement.
- b. Percentage of students participating in such activities in a given year.

Direct Indicator of:	Related to:
currency and relevance of curriculum	<ul> <li>quality of student experience</li> <li>societal need (industry/professional component)</li> </ul>

## Comments:

This indicator bears upon Ryerson's commitment to provide a high level of applied, experiential learning.

## Related Statistic:

Percentage of programs that provide opportunity for international experience, and number of students participating in international activities in a given year.

## Issues:

Calculation of Indicator 4b has been deferred. Current data sources do not provide adequate information on the extent of the experiential component on a student-by-student basis. Indicator 4a provides similar information by classifying programs of study but there is variation in the definition of the experiential component across programs. New data collection would be required to obtain data on the numbers of students participating in international activities (or having an opportunity to participate).

- 2. There is variation in the definition of the experiential components across programs.
- 3. Nutrition & Food program students must complete a two-year internship after graduation in order to qualify for admission to the College of Dietitians of Ontario.

# **Indicator 5: Retention and Graduation Rates**

- a. Percentage of students admitted into first year who complete first year with a CLEAR academic standing.
- b. Graduation rates (MTCU methodology).
- d. Percentage of students retained in any year level of same program after one year of study.
- e. Percentage of students retained in any year level of same program after two years of study.
- f. Percentage of students retained in any year level of same program after three years of study.
- g. Percentage of students retained in any year level irrespective of program of study after one year of study.
- h. Percentage of students retained in any year level irrespective of program of study after two years of study.
- Percentage of students retained in any year level irrespective of program of study after three years of study.
- j. Retention and graduation rates for students in part-time programs.
- k. Percentage of baccalaureate-seeking new students admitted directly from secondary school retained in any year level of any program after one year of study (CSRDE definition).
- Percentage of baccalaureate-seeking new students admitted directly from secondary school retained in any year level of any program after two years of study (CSRDE definition).
- m. Percentage of baccalaureate-seeking new students admitted directly from secondary school retained in any year level of any program after three years of study (CSRDE definition).
- n. Percentage of baccalaureate-seeking new students admitted directly from secondary school who graduated within six years (CSRDE definition).

Direct Indicator of:	Related to:
student academic success	<ul> <li>student support systems and services</li> <li>curriculum, teaching, and course delivery</li> <li>academically well-qualified students</li> </ul>

## Comments:

These indicators help to gauge the level of student academic success and rates of progression through the program. It can be affected by academic promotion policy and other factors. The method of calculation for Indicators 5k to 5n follows that developed by the Consortium for Student Retention Data Exchange (CSRDE) and is widely used in North America.

- 1. Based on Ryerson's student information system data.

  2. The percentages shown above are calculated by dividing the number of newly admitted year one students who had a CLEAR standing at the end of the winter term by the total number of newly admitted year one students. For example, in Fall 2011 there were 6,352 students who were new to Ryerson and in year one. Of these, 4,835 (or 76.1%) had a CLEAR standing at the end of the 2011/12 academic year. This method is different than that used in editions of the Progress Indicators previous to 2010. Students who did not have an academic standing at the end of the year were previously excluded from the calculation. An academic standing is not calculated for students with fewer than three completed graded courses.
- 3. Zero values are shown as blanks. Blank cells are the result of cohorts with a very small number of students. Cells with "n/a" indicate faculties/programs that were either discontinued or had yet to begin.
- 4. As a result of policy changes beginning in Fall 2008, new year one students can no longer be suspended automatically at the end of the Fall term. Previously these students would not have been eligible for CLEAR standing at the end of the Winter 2009 term. This accounts for a significant increase in the percentage of students having a CLEAR standing at the end of the 2008-09 academic year.

Notes

1. Newly-admitted students in first-year level of degree programs who were registered with a full-time course load on 1 November (ie., MCUFFTE>=0.4 in the fall term). Includes students in part-time programs if they had a full-time course load. Excludes students who eventually graduated with a diploma only (in degree programs that offered a diploma-exit option).

2. Students who graduated with any Ryerson degree during the calendar years shown.

3. Requirement that MCUFFTE>=0.4 in fall term results in exclusion of nearly all program students from cohort.

4. Not shown for part-time programs due to extremely low number of students in cohort.

5. "..." denotes entries that are not shown at the program level but which are used at the faculty level and higher.

6. The MTCU methodology excludes advanced standing students admitted within the identified timeframe.

- 1. Data are shown for 11 cohorts of students dating from Fall 2001 to Fall 2011.
- 2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly-admitted or not in first-year are excluded.
- 3. The table shows the percentage of students who registered (irrespective of course load) in the same program in the Fall academic term one year later (identified on the line marked "Retained in:"). For example, 83.5% of newly-admitted students registered with a full-time load in first-year at Ryerson in Fall 2001 were registered in the same program one year later in Fall 2002.
- 4. For students in co-op programs being registered in either of the Fall or Winter terms have been substituted when making the retention calculation.
- 5. Cells with "n/a" indicate that a program did not exist for a given year.

- 1. Data are shown for eleven cohorts of students dating from Fall 2000 to Fall 2010.
- 2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly-admitted or not in first-year are excluded.
- 3. The table shows the percentage of students who registered (irrespective of course load) in the same programs in the Fall academic term two years later (identified on the line marked "Retained in:"). For example, 74.3% of newly-admitted students registered with a full-time load in first-year at Ryerson in Fall 2000 were registered in the same program two years later in Fall 2002.
- 4. For students in co-op programs being registered in either of the Fall or Winter terms have been substituted when making the retention calculation.
- 5. Cells with "n/a" indicate that a program did not exist for a given year.

- 1. Data are shown for 11 cohorts of students dating from Fall 2001 to Fall 2011.
- 2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly-admitted or are not in first-year are excluded.
- 3. The table shows the percentage of students who registered (irrespective of course load) in the Fall academic term one year later (identified on the line marked marked "Retained in:"). For example, 88.1% of newly-admitted students registered with a full-time load in first-year at Ryerson in Fall 2001 were registered one year later in Fall 2002 irrespective of program of study.
- 4. For students in co-op programs being registered in either of the Fall or Winter terms have been substituted when making the retention calculation.
- 5. Cells with "n/a" indicate that a program did not exist for a given year.

- 1. Data are shown for 11 cohorts of students dating from Fall 2000 to Fall 2010.
- 2. A student is included in the cohort if registered with a full-time load in the academic term (shown on the line marked "Cohort:"). Students who are not newly-admitted or not in first-year are excluded.
- 3. The table shows the percentage of students who registered (irrespective of course load) in the Fall academic term two years later (identified on the line marked "Retained in:"). For example, 80.0% of newly-admitted students registered with a full-time load in first-year at Ryerson in Fall 2000 were registered two years later in Fall 2002 irrespective of program of study.

  4. Students in co-op programs being registered in either of the Fall or Winter terms have been substituted when making the retention calculation.
- 5. Cells with "n/a" indicate that a program did not exist for a given year.
- 6. Starting in 2003/04, the retention rates for the options within the Business Mgt program were tracked separately.

- Notes

  1. Data are shown for 11 cohorts of students dating from Fall 1999 to Fall 2009.
- 2. A student is included in the cohort if registered with a full-time load in the academic term (shown on the line marked "Cohort:"). Students who are not newly-admitted or not in first-year are excluded.
- 3. The table shows the percentage of students who registered (irrespective of course load) in the Fall academic term three years later (identified on the line marked "Retained in:"). For example, 76.9% of newly-admitted students registered with a full-time load in first-year at Ryerson in Fall 1999 were registered three years later in Fall 2002 irrespective of program of study.
- 4. For students in co-op programs being registered in either of the fall or winter terms has been substituted when making the retention calculation.
- 5. Cells with "n/a" indicate that a program did not exist for a given year.
- 6. Beginning with the 2003/04 year the retention rates for the options within the Business Mgt program were tracked separately.

- 1. Data are shown for nine cohorts of students from 2000/01 to 2008/09
- 2. A student is included in the cohort if registered in a part-time program in one of the three terms (Spring/Summer, Fall or Winter) on th line marked "Cohort:". Students who are not considered to be newly-admitted or not in first-year level are excluded
- 3. The table shows the percentage of students who registered (irrespective of course load) in any term four academic years later, identific on the line "Retained in:"
- 4. For example, 37.5% of newly-admitted students registered in a part-time program at Ryerson in the academic year 2000/01 wer registered in the 2004/05 academic year
- 5. Students who graduated after four years of study have been removed from the cohort so as to accurately reflect the retention rates
- 6. Cells with "n/a" indicate that either a program did not exist for a given year or that no new students were admitted that yea
- 7. All the 2006/07 students in the Early Childhood Studies program had graduated by the 2010/11 year. Therefore, no retention rate wa reported.

- Notes
  1. The Consortium for Student Retention Data Exchange (CSRDE) is a group of more than 400 member universities across the United States and Canada. Each institution provides information about retention and graduation, using common definitions, for benchmarking purposes. Since 2005-06, all Ontario universities have been required to participate in CSRDE.
- nave been required to participate in CSRDE.

  2. A student is included in the cohort if newly admitted from a secondary school into first year and registered with a full-time load in the academic term marked "Cohort:". Students who are not newly admitted or are not in first year are excluded.

  3. The table shows the percentage of students who registered (irrespective of course load) in the Fall academic term identified on the line marked "Retained in:".

  For example, 85.8% of students newly admitted from a secondary school into first year on a full-time load at Ryerson in Fall 2011 were registered one year later in Fall 2012.

  4. Cells with "n/a" indicate that a program did not exist in a given year.

- 1. The Consortium for Student Retention Data Exchange (CSRDE) is a group of more than 400 member universities across the United States and Canada. Each institution provides information about retention and graduation, using common definitions, for benchmarking purposes. Since 2005-06, all Ontario universities have been required to participate in CSRDE.
- 2. A student is included in the cohort if newly admitted from a secondary school into first year and registered with a full-time load in the academic term marked "Cohort". Students who are not newly admitted or not in first year are excluded.
- 3. The table shows the percentage of students who registered (irrespective of course load) in the Fall academic term identified on the line marked "Retained in". For example, 80.7% of students newly admitted from a secondary school into first year on a full-time load at Ryerson in Fall 2010 were registered two years later in Fall 2012.
- 4. Cells with "n/a" indicate that a program did not exist in a given year.

- Notes

  1. The Consortium for Student Retention Data Exchange (CSRDE) is a group of more than 400 member universities across the United States and Canada. Each institution provides information about retention and graduation, using common definitions, for benchmarking purposes. Since 2005-06, all Ontario universities have been required to participate in CSRDE.

  2. A student is included in the cohort if newly admitted from a secondary school into first year and registered with a full-time load in the academic term marked "Cohort". Students who are not newly admitted or not in first year are excluded.
- 3. The table shows the percentage of students who registered (irrespective of course load) in the Fall academic term identified on the line marked "Retained in". For example, 78.1% of students newly admitted from secondary school into first year on a full-time load at Ryerson in Fall 2009 were registered three years later in Fall 2012.
- 4. Cells with "n/a" indicate that a program did not exist in a given year.

Notes

1. The Consortium for Student Retention Data Exchange (CSRDE) is a group of more than 400 member universities across the United States and Canada. Each institution provides information about retention and graduation, using common definitions, for benchmarking purposes. Since 2005-06, all Ontario universities have been required to participate in CSRDE.

2. A student is included in the cohort if newly admitted from a secondary school into first year and registered with a full-time load in the academic term marked "Cohort". Students who are not newly admitted or not in first year are excluded.

3. This table indicates that, for example, 70.0% of students newly admitted from secondary school in Fall 2006 into first year and on a full-time load.

at Ryerson graduated within six years.

<sup>4.</sup> Cells with "n/a" indicate that a program did not exist in a given year.

Indicator 6: Class Size Distribution of class sizes.	
Direct Indicator of:	Related to:
<ul><li>student-faculty interaction</li><li>course delivery</li></ul>	high quality student experience

# Comments:

While the relationship between class size and academic success is an item of some controversy, the percentage of classes and sections in different size ranges provides useful information about the nature of student-faculty interaction at Ryerson.

Indicator 7: Scholarships and Bursaries  a. Scholarships and bursaries: total awards. b. Scholarships and bursaries: percentage of total operating expenditures.									
Direct Indicator of:	Related to:								
<ul> <li>objective of reducing financial barriers and maintaining accessibility</li> <li>academically well-qualified students</li> </ul>	student support systems and services								

Indicator 8: Library and Student Services  a. Library expenditures as a percentage of the b. Library acquisitions as a percentage of like c. Library expenditures in dollars per FFTE. d. Student services expenditures in dollars per services expenditures in dollars per services expenditures in dollars per services.	prary operating expenditures.						
Direct Indicator of:	Related to:						
<ul> <li>student support systems and services</li> <li>learning support facilities</li> <li>program quality and success</li> <li>student academic success</li> </ul>							
Comments:  Various ways of assessing aspects of our learning supports and resources.

# **Indicator 9: Faculty Background**

- a. Percentage of total faculty and percentage of new hires with PhD or other terminal degree.
- b. Percentage of new hires with directly related experience in the professional field.

Direct Indicator of:	Related to:
objective to attract and retain highly qualified faculty	<ul> <li>scholarly, research and creative (SRC) capacity and productivity</li> <li>program quality and success</li> <li>quality of the student experience</li> </ul>

### Comments:

Indicates our level of progress in hiring faculty both with typical university-level academic qualifications and with the professionally-related experience so important to Ryerson's mission.

### Issues:

Indicator 9a shows the highest educational background by type of credential for total faculty and new hires as two tables on separate pages. Calculation of Indicator 9b has been deferred because new data collection would be required to measure directly-related experience in the professional field on a consistent basis.

# Indicator 10: Scholarly, Research and Creative Activities (SRC) Funding

- a. Total number and value of externally funded SRC projects.
- b. Percentage of faculty with funded SRC activity.

Direct Indicator of:	Related to:
SRC capacity and productivity	<ul> <li>objective to attract and retain qualified faculty</li> </ul>

### Comments:

Provides an indication of both competitiveness in SRC grant competitions and the breadth of SRC activity within Ryerson.

## Issues:

For externally adjudicated and externally funded grants, indicators showing the number of grants per Mode II faculty member, the dollar value of grants per Mode II faculty member, the number of grants per Mode I faculty member and the dollar value of grants per Mode I faculty member have been constructed. It should be noted that indicators for Mode I faculty members have been included because Mode I faculty do undertake SRC activity and their exclusion would result in an incomplete profile. However, SRC is not a requirement for Mode I faculty members. Calculation of Indicator 10b has been deferred.

- 1. Based on background and supplementary data from the Office of Research Services.
- 2. Cells with "n/a" indicate that there were no Mode I faculty in that teaching department.
- 3. Grants included are those for which **both adjudication and funding is external** to Ryerson.

4. Includes grants from the federal granting agencies: Social Sciences and Humanities Research (SSHRC), Canada Council, Natural Sciences and Engineering Research Council (NSERC), and grants awarded via federal granting agencies to the Network of Centres of Excellence. Other grants in addition to those awarded by the federal granting agencies are included if both adjudication and funding is external to Ryerson.

### Notes

- 1. Based on background and supplementary data from the Office of Research Services.
- 2. Cells with "n/a" indicate that there were no Mode I faculty in that teaching department.
- 3. Grants included are those for which adjudication and funding is external to Ryerson.
- 4. Includes grants from the federal granting agencies: Social Sciences and Humanities Research (SSHRC), Canadian Institutes of Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), Communication Research Center Canada (CRC), Canada Fundation for Innovation (CFI), and grants awarded via federal granting agencies to the Network of Centres of Excellence (NCE).
- 5. Includes grants from the provincial granting agencies: Ontario Centers of Excellence (OCE).
- 6. Includes both federal and provincial government contracts and grants.
- 7. Includes corporation and business grants and other grants if both adjudication and funding is external to Ryerson.

- Notes

  1. Based on background and supplementary data from the Office of Research Services.

  2. Cells with "n/a" indicate that there were no Mode I faculty in that teaching department.

  3. Grants included are those for which adjudication and funding are external to Ryerson.

  4. Includes grants from the federal granting agencies: Social Sciences and Humanities Research (SSHRC), Canadian Institutes of Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), Communications Research Centre Canada (CRC), Canada Foundation for Innovation (CFI), and grants awarded via federal granting agencies to the Networks of Centres of Excellence (NCE).
- 5. Includes grants from the provincial granting agencies: Ontario Centres of Excellence (OCE).
- 6. Includes both federal and provincial government contracts and grants.
- 7. Includes corporate and business grants and other grants if both adjudication and funding are external to Ryerson.

- 1. Based on background and supplementary data from the Office of Research Services.
- Grants included are those for which adjudication and funding are external to Ryerson.
   Includes grants from the federal granting agencies: Social Sciences and Humanities Research (SSHRC), Canadian Institutes of Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), Communications Research Centre Canada (CRC), Canada Foundation for Innovation (CFI), and grants awarded via federal granting agencies to the Networks of Centres of Excellence (NCE).
- 4. Includes grants from the provincial granting agencies: Ontario Centres of Excellence (OCE).
- 5. Includes both federal and provincial government contracts and grants.
- 6. Includes corporate and business grants and other grants if both adjudication and funding are external to Ryerson.
- 7. "n/a" denotes that either the department did not exist in a given year (example: Business Mgt and and the disiplines within it) or there were no faculty in a given mode.

- Notes

  1. Based on background and supplementary data from the Office of Research Services
  2. Grants included are those for which adjudication and funding are external to Ryersor
  3. Includes grants from the federal granting agencies: Social Sciences and Humanities Research (SSHRC), Canadian Institutes o Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), Communications Research Centre Canada (CRC), Canadian Foundation for Innovation (CFI), and grants awarded via federal granting agencies to the Networks o Centres of Excellence (NCE).
  4. Includes grants from provincial granting agencies: Ontario Centres of Excellence (OCE)
  5. Includes both federal and provincial government contracts and grants
  6. Includes corporate and business grants and other grants if both adjudication and funding are external to Riversor.

- 6. Includes corporate and business grants and other grants if both adjudication and funding are external to Ryersor
  7. "n/a" denotes that either the department changed Faculties (Health Services Mgt) or there were no faculty in a given mode

# **Indicator 11: Student to Faculty Ratio**

Ratio of total students (FFTE) to total teaching faculty (FTE) with CE excluded from both parts of the calculation.

Direct Indicator of:	Related to:
quality of student experience	<ul> <li>high quality student-faculty interaction</li> <li>appropriate course delivery and high quality teaching</li> <li>SRC capacity and productivity</li> </ul>

### Comments:

A general quantitative indicator of faculty resources

## Related statistics:

- Gender balance of total tenured and tenure-track teaching faculty and gender balance of new tenure-track hires
- New tenure-track hires and total faculty by designated equity hiring groups
- Total number of tenured or tenure-track faculty
- Total FTE

# Comments:

Calculation of other related statistics (with the exception of gender balance) has been deferred.

- 1. Student full-time equivalent data from Ryerson's student information system. Faculty data from HR and includea active RFA and CUPE instructors. Deans and Professors of Distiction have been excluded from the faculty counts. Associate Deans have been included
- 2. Both undergraduate and graduate degree enrolments included in calculations. All CE students and all teaching by CE to undergraduate degree
- students have been excluded.

  3. Undergraduate FFTE are based on teaching in Fall and Winter terms. Graduate FTE have been converted to undergraduate equivalents. (i.e., three terms divided by two).
- 4. The School of Health Services Management became part of the Ted Rogers School of Management in 2011/12
  - The Department of Aerospace Engineering and the School of Mechanical Engineering were combined until 2003/04
    The Departments of Chemical Engineering and Chemistry and Biology were combined until 2003/04
    The Departments of Mathematics, Physics and Computer Science were combined until 2005/06

- Notes

  1. Based on data from Ryerson's Human Resources Department.

- Includes tenure track faculty assigned to teaching departments hired between 1 October and 30 September (Deans are excluded).
   In 2011 Health Services Mgt changed from the Faculty of Community Services to the Ted Rogers School of Mgt.
   The Faculty of Science was newly created in June 2012. Previously the departments within this faculty were in the Faculty of Engineering, Architecture & Science.

# Indicator 12: Scholarly, Research and Creative Activities (SRC) Output

- a. Number of faculty with peer-reviewed publications (papers, monographs, chapters), and total number of peer reviewed publications.
- b. Number of juried exhibits/installations, or performed/produced creative works, per faculty member in relevant schools/departments.
- c. Number of faculty with non peer-reviewed, academically related publications, and total number of such publications.

Direct Indicator of:	Related to:
SRC capacity and productivity	<ul> <li>objective of attracting highly qualified faculty</li> </ul>

## Comments:

These indicators augment conventional university research measures in order to reflect Ryerson's SRC philosophy. These require new means of assembling information and are not yet in place.

### Issues:

Calculation deferred. The types of indicators envisaged in this section are highly timeintensive if these are to be calculated on a consistent basis across the University.

Indicator 13: Teaching-related Research
Number of faculty who have published teachin

Number of faculty who have published teaching-related research or presented teaching-related conference papers in the past three years.

Direct Indicator of:	Related to:
<ul><li>commitment to quality teaching</li><li>SRC productivity</li><li>conduct SRC to the benefit of students</li></ul>	curriculum and course delivery

### Comments:

A particular type of SRC focussed on pedagogical innovation and enhancement.

### Issues:

Calculation deferred. The data necessary are not presently collected.

# **Indicator 14: Graduating Undergraduate Student Satisfaction**

Graduating student survey: Percentage of undergraduate students indicating "satisfied" or "very satisfied" with:

- a. teaching
- b. curriculum
- c. career preparation
- d. Ryerson as a whole

Direct Indicator of:	Related to:
<ul> <li>graduating student satisfaction in each of the specified areas</li> </ul>	<ul><li>quality of the student experience</li><li>program quality and success</li><li>student support systems and services</li></ul>

## Comments:

Extracted from the existing annual survey of graduating students.

## Issues:

The survey of graduating undergraduate students is conducted as part of Ryerson's participation in the Canadian Undergraduate Survey Consortium (CUSC). The extent of overlap between Indicators 14 and 15 is under review.

- Notes
  1. Based on Ryerson data from Canadian Undergraduate Survey Consortium, Survey of Graduating Students 2000
  2. Percentages for each question do not sum to 100 percent because "not stated" responses are not shown
  3. Column headed "Respondents" shows the number of students who completed the questionnaire

- 4. The Landscape Architecture diploma program has been phased-out.
- 5. Reported for students who applied to graduate from full-time programs
  6. Column headed "+/- Error" estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown in the "Yes" column. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the rate in the sample is 100%. For example, between 84.9 and 87.3 of students who applied to graduate would recommend Ryerson to others

- 3. Column headed "Respondents" shows the number of students who completed the questionnaire.
- 4. Reported for students who applied to graduate from full-time programs.
- 4. Reported to students with applied to graduate from further programs.

  5. Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "Yes" column. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the rate in the sample is 100%. For example, between 82.5 and 85.1 of students who applied to graduate would recommend Ryerson to others.

### **Notes**

- Based on Ryerson data from Canadian Undergraduate Survey Consortium, Survey of Graduating Students 2009.
   Column headed "Respondents" shows the number of students who completed the questionnaire.
- 3. Reported for full-time programs.

<sup>4.</sup> Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "Yes" column. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the rate in the sample is 100%. For example, between 83.6% and 87.2% of students who applied to graduate would recommend Ryerson to others.

- Notes

  1. Based on Ryerson data from Canadian Undergraduate Survey Consortium, Survey of Graduating Students 2012.
- 2. Column headed "Respondents" shows the number of students who completed the questionnaire.

<sup>3.</sup> Reported for full-time programs.

4. Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "Yes" column. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the rate in the sample is 100%. For example, between 85.4% and 88.4% of students who applied to graduate would recommend Ryerson to others.

# **Indicator 15: Student Satisfaction**

Student Survey: % indicating "satisfied" or "very satisfied" with (for illustrative purpose only; see comment below):

- a. teaching
- b. curriculum
- c. career preparation
- d. Ryerson as a whole

Direct Indicator of:	Related to:
student satisfaction in each of the specified areas	<ul> <li>quality of the student experience</li> <li>program quality and success student support systems and services</li> </ul>

## Comments:

The extent of overlap between Indicators 14 and 15 is under review.

Indicator 16: Applications to Registrants Ratios (Graduate Studies)									
Direct Indicator of:	Related to:								
<ul> <li>academically well-qualified student body</li> <li>societal need (student demand component)</li> </ul>	<ul><li>student academic success</li><li>program quality and success</li><li>quality of student experience</li></ul>								

# Comments:

This indicator reflects Ryerson's image and profile, and that of its graduate programs, among prospective students.

# Related statistics:

- Gender balance of student body
  Percentage of students from outside the GTA; from other provinces; international

## **Indicator 17: Completion Rates (Graduate Studies)**

- a. Completion rates after one, two, three and four years of study for full-time Master's programs.
- b. Completion rates after four, five, six and seven years of study for part-time Master's programs.
- c. Average time to completion for both full- and part-time programs.
- d. Completion rates for Doctoral Programs.
- e. Average time to completion for Doctoral Programs.

Direct Indicator of:	Related to:
student academic success	<ul> <li>student support systems and services</li> <li>curriculum, teaching, and course delivery</li> <li>academically well-qualified students</li> </ul>

## Comments:

This indicator helps to gauge the rates of progression through the program and can be affected by academic promotion policy and other factors.
