	Total	77.2%	88.2%	92.5%	1.5%

1. The graduation rates shown understate the actual graduation rates because they do not count students who transferred to another university and then obtained a degree from that institution.
2. The employment rates in the table indicate the percentage of Class of 2021 degree graduates who were employed six months and two years after graduation.
3. OSAP default rates reflect the 2020 repayment status of students who were issued either a Canada Student Loan and/or an Ontario Student Loan through the Ontario Student Assistance Program in the 2019-2020 academic year and did not receive a loan in 2020-2021 and who were in default of their repayment obligations in July 2022. Typically, these students would have exited studies at the end of the 2019-2020 academic year. Includes undergraduate and graduate students. A blank cell denotes data not available or not reported.
4. "--" indicates that no data is available. " * " indicates that cell counts less than or equal to 10 and are not shown in order to ensure respondent's confidentiality.
