Progress Indicators and Related Statistics - January 2026

Introduction

This document updates the progress indicators and related statistics to include the most recent available data. It builds upon comments and suggestions that have been received following the presentation of prior editions and supports integrated academic planning at the university, faculty and departmental levels.

When indicator data are viewed as a time-series, trends across the years can provide Toronto Metropolitan University's academic units with useful contextual information on progress towards achieving planned quality improvements and other objectives. The progress indicators and related statistics are intended to inform the academic planning processes at the university, faculty and departmental levels, and to enhance public accountability. The progress indicators:

1. Provide a focused information base to support planning processes.

2. Improve the University's ability to follow and project trends related to several critical goals and objectives and enable the evaluation of progress.

3. Enable the University to refocus current information gathering efforts to better satisfy internal information needs.

4. Provide a statistical profile of Toronto Metropolitan University that will inform a broad audience about who we are and where we are in our academic evolution.

The University Planning Office has developed the progress indicators and related statistics from a wide array of data sources. It determined specific indicator definitions, collected and analysed relevant data, and produced these progress indicators and related statistics in a manner that can also be applied to future years.

The progress indicators and related statistics continue to evolve. The University Planning Office welcomes comments and suggestions so that the indicators can be improved as necessary to meet Toronto Metropolitan University's current and future needs.

The statistical data on the following pages supersede those of prior editions. Each indicator includes a brief description, the intended purpose of measurement, comments and issues, calculated data and any applicable related statistics.

Indicator 1: Applications and Entering Averages (Year 1 New)
a. Ratio of applications (all choices) to registrants.
b. Mean secondary school average of all incoming first-year students from secondary schools.
c. Percentage of incoming first-year students from secondary schools with averages of 80% or higher.

Direct Indicator of:	*Related to*:
• academically well-qualified student body • societal need (student demand component)	• student academic success • program quality and success • quality of student experience

Comment **s:**
These indicators reflect Toronto Metropolitan University's image and profile, and that of its programs, among prospective students.

Related statistics:
• percentage of applicants who are from Ontario secondary schools; from other universities; from Colleges of Applied Arts and Technology (CAATs)
• gender distribution of student body
• percentage of students from outside the GTA; from other provinces; international.

Issues:
In the case of Indicator 1a, data limitations do not permit calculation of qualified applicants as distinct from those who lack admission qualifications. For example, in some cases applications are withdrawn by students before they are assessed for qualifications. It is also true that some qualified applicants do not intend to attend Toronto Metropolitan University if accepted by another institution. As a result, total applications are shown instead of qualified applications.

Indicator 1a

Notes
1. Based on OUAC data files.
2. Applicants are able to submit more than three applications if they choose; all applications are shown in the table.
3. Data limitations do not enable applications to be disaggregated into qualified and unqualified categories (based on whether or not the applicant was found to have met minimum admission requirements for the program(s) to which an application was submitted).
4. The number of registrants used in the calculation is as of November 1 of each year.
5. "n/a" denotes that a program did not exist for a given year.

Indicator 1b	Mean entering average of newly-admitted students registered in first-year level on November 1 who were admitted directly from an Ontario secondary school

Notes

1. Based on (a) TMU's student information system and (b) OUAC data files.
2. Includes only newly-admitted students in first-year level on November 1.
3. Students applying directly from secondary school complete the OUAC 101 Application Form and are also referred to as 101s.
4. Entering averages for individual students are unrounded and expressed to one decimal place. Students for whom an entering average was unavailable are excluded from the calculation.
5. "n/a" denotes that a program did not exist for a given year.

Indicator 1c										
Reported for full-time, first-entry programs only	Percentage of newly-admitted students registered in first-year level on November 1 who were admitted directly from an Ontario secondary school with an entering average of 85% or higher

Notes

1. Based on (a) TMU's student information system and (b) OUAC data files.

2. Includes only newly-admitted students in first-year level on November 1.

3. Students applying directly from secondary school complete the OUAC 101 Application Form and are also referred to as 101s.

4. Entering averages for individual students are unrounded and expressed to one decimal place. Students for whom an entering average was unavailable are excluded from the calculation. An entering average of 85.0 or higher is required for inclusion in this table.

5. "n/a" denotes that a program did not exist for a given year.

Notes
1. Based on (a) TMU's student information system and (b) OUAC data files.
2. Educational source of students as reported to TMU by OUAC.
3. Percentage of students transferring to TMU from other universities as shown in this table does not include those
who transfer into upper years of TMU programs.
4. Zero values are shown as blanks.
5. "n/a" denotes that a program did not exist for a given year.

2. Zero values are shown as blanks.
3. "n/a" denotes that a program did not exist for a given year.

Indicator 2: Enrolment in Part-time Programs and Chang School
a. Number of FFTE in part-time programs.
b. Total Chang School of Continuing Education registrations in credit courses.

Direct Indicator of:	*Related to* :
• accessibility • provision of continuous learning • role of part-time programs in providing continuous learning opportunities	• student learning experience

Comments:
Trend lines for these variables must be interpreted carefully in light of external circumstances, particularly prevailing economic conditions that influence Chang School and part-time program enrolments.

Related Statistics :
• Gender distribution of CNED student body

Notes

1. Based on TMU's student information system.

2. All Spring/Summer term enrolment is attributed to the part-time program in cases where a program is offered on both a full- and part-time basis.

3. Excludes Continuing Education students.

4. The Creative School and the Faculty of Engineering & Architectural Science have no part-time programs.

5. "…" denotes entries that are not shown at the program level but which are used at the faculty level and higher.

6. Cells with "n/a" indicate the program did not exist.

Notes
1. Based on TMU's student information system.
2. The Creative School and the Faculty of Engineering & Architectural Science have no part-time programs.
3. The headcounts of new registrants in part-time programs include students who have enrolled in previous academic terms as Continuing Education students, but excludes students transferring to a part-time program from a full-time program.
4. Cells with "n/a" indicate the program did not exist.

Notes
1. Based on TMU's student information system.

Indicator 3: Graduate Employment Rates	
Graduate employment placement rates in the chosen field or a related field .	
Direct Indicator of:	*Related to :*
• societal need (employment)	• currency and relevance of curriculum
Comments: One of several indirect measures of program success, and one which we are currently required to report to the Ministry. Because of our applied mandate, to measure placement rates without reference to the student's chosen career field is inadequate. This variable must also be interpreted in light of economic trends.	
Issues: This indicator is based on survey data and therefore must be interpreted carefully in light of the associated estimated error of the survey results at each level of disaggregation. The underlying survey is administered to graduates from degree programs only.	

Indicator 3	Percentage of degree graduates employed in any field				Percentage of employed degree graduates that are employed in a field closely or somewhat related to field of studies			
	Class of 2013 after six months		Class of 2013 after two years		Class of 2013 after six months		Class of 2013 after two years	
	Percentage	+/- Error	Percentage	+/- Error	Percentage	+/- Error	Percentage	+/- Error
Toronto Metropolitan University	**82.8%**	**1.2%**	**91.7%**	**0.9%**	**76.0%**	**1.7%**	**81.3%**	**1.4%**
Arts	81.6%	4.2%	89.7%	3.3%	38.1%	6.7%	49.7%	6.4%
Community Services	81.7%	2.1%	91.7%	1.5%	81.7%	2.1%	88.5%	2.0%
Engineering & Architectural Science	74.0%	4.8%	88.5%	3.5%	74.0%	4.8%	88.5%	3.5%

The Creative School	87.1%	2.8%	91.4%	2.4%	77.2%	4.1%	82.5%	3.6%

Notes
1. Based on disaggregation of Ontario University Graduation Survey (OUGS) data which surveys graduates from undergraduate degree programs.
2. Column headed +/- Error estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the employment rate in the sample is 100%. For example, between 79.9% and 82.7% of graduates from TMU's Class of 2013 found work in a field either closely or somewhat related to their field of studies two years after graduation.
3. Graduates who were not part of the labour force (e.g., enrolled in graduate school) are excluded from the calculation.

Indicator 3	Percentage of degree graduates employed in any field				Percentage of employed degree graduates that are employed in a field closely or somewhat related to field of studies			
	Class of 2014 after six months		Class of 2014 after two years		Class of 2014 after six months		Class of 2014 after two years

Notes
1. Based on disaggregation of Ontario University Graduation Survey (OUGS) data which surveys graduates from undergraduate degree programs.
2. Column headed +/- Error estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the employment rate in the sample is 100%. For example, between 79.2% and 82.2% of graduates from TMU's Class of 2014 found work in a field either closely or somewhat related to their field of studies two years after graduation.
3. Graduates who were not part of the labour force (e.g., enroled in graduate school) are excluded from the calculation.

Indicator 3	Percentage of degree graduates employed in any field				Percentage of employed degree graduates that are employed in a field closely or somewhat related to field of studies			
	Class of 2015 after six months		Class of 2015 after two years		Class of 2015 after six months		Class of 2015 after two years	
	Percentage	+/- Error	Percentage	+/- Error	Percentage	+/- Error	Percentage	+/- Error
Toronto Metropolitan University	**85.0%**	**1.3%**	**93.2%**	**0.9%**	**74.0%**	**1.9%**	**78.5%**	**1.6%**
Arts	86.0%	3.9%	92.6%	3.0%	40.5%	6.7%	48.0%	6.3%
Community Services	81.3%	2.5%	92.2%	1.7%	78.7%	3.2%	86.7%	2.4%

Science	81.1%	5.1%	91.2%	3.7%	59.2%	8.5%	68.4%	7.5%
Ted Rogers School of Management	80.4%	2.9%	93.7%	1.8%	75.1%	3.8%	80.3%	3.2%
The Creative School	78.6%	3.8%	92.5%	2.4%	72.4%	5.1%	78.5%	4.2%

Notes
1. Based on disaggregation of Ontario University Graduation Survey (OUGS) data which surveys graduates from undergraduate degree programs.
2. Column headed +/- Error estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the employment rate in the sample is 100%. For example, between 76.8% and 80.2% of graduates from TMU's Class of 2020 found work in a field either closely or somewhat related to their field of studies two years after graduation.
3. Graduates who were not part of the labour force (e.g., enroled in graduate school) are excluded from the calculation.

Indicator 3								
	Percentage of degree graduates employed in any field				Percentage of degree graduates employed in a field closely or somewhat related to field of studies			
	Class of 2021 after six months		Class of 2021 after two years		Class of 2021 after six months		Class of 2021 after two years	
	Percentage	+/- Error	Percentage	+/- Error	Percentage	+/- Error	Percentage	+/- Error
Toronto Metropolitan University	**88.2%**	**1.3%**	**92.5%**	**1.0%**	**77.3%**	**1.9%**	**80.3%**	**1.7%**
Arts	83.2%	4.3%	90.5%	3.4%	46.3%	7.3%	53.8%	6.7%
Community Services	92.2%	2.0%	94.6%	1.7%	89.0%	2.6%	89.7%	2.4%
Engineering & Architectural Science	83.8%	4.1%	91.5%	3.1%	80.1%	5.3%	85.4%	4.3%
Science	75.0%	6.0%	88.8%	4.3%	75.0%	7.9%	80.2%	6.7%
Ted Rogers School of Management	91.1%	2.1%	94.4%	1.7%	75.0%	3.5%	79.5%	3.2%
The Creative School	88.5%	3.4%	88.6%	3.4%	78.6%	5.0%	78.3%	4.9%

Notes
1. Based on disaggregation of Ontario University Graduation Survey (OUGS) data which surveys graduates from undergraduate degree programs.
2. Column headed +/- Error estimates the magnitude of error (including finite population correction f.p.c.) associated with each survey result shown. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the employment rate in the sample is 100%. For example, between 78.6% and 82.0% of graduates from TMU's Class of 2021 found work in a field either closely or somewhat related to their field of studies two years after graduation.
3. Graduates who were not part of the labour force (e.g., enroled in graduate school) are excluded from the calculation.

Indicator 4: Experiential Learning	
a. Percentage of programs with formal experiential component, including co-op, internship, work/field/clinical placement.	
b. Percentage of students participating in such activities in a given year.	

Direct Indicator of:	*Related to* :
• currency and relevance of curriculum	• quality of student experience • societal need (industry/professional component)

Comments :
This indicator bears upon Toronto Metropolitan University's commitment to provide a high level of applied, experiential learning.

Related Statistic :
Percentage of programs that provide opportunity for international experience, and number of students participating in international activities in a given year.

Issues :
Calculation of Indicator 4b has been deferred. Current data sources do not provide adequate information on the extent of the experiential component on a student-by-student basis. Indicator 4a provides similar information by classifying programs of study but there is variation in the definition of the experiential component across programs. New data collection would be required to obtain data on the numbers of students participating in international activities (or having an opportunity to participate).

Indicator 4a	Percentage of programs with formal experiential component (2016/17)					
Reported for full-time programs only	Co-op	Internship	Work Placement	Field Experience/ Placement	Clinical Placement	Total
Toronto Metropolitan University	**22.4%**	**17.2%**	**3.4%**	**43.1%**	**6.9%**	**93.1%**
The Creative School	**0.0%**	**0.0%**	**15.4%**	**61.5%**	**0.0%**	**76.9%**

Notes
1. Based on Toronto Metropolitan University Calendar and supplementary information from the Office of Co-operative Education
2. There is variation in the definition of the experiential components across programs.
3. Nutrition & Food program students must complete a two-year internship after graduation in order to qualify for admission to the College of Dietitians of Ontario

Indicator 5: Retention and Graduation Rates

a. Percentage of students admitted into first year who complete first year with a CLEAR academic standing.

b. Graduation rates (MCU Methodology).

d. Percentage of students retained in any year level of same program after one year of study.

e. Percentage of students retained in any year level of same program after two years of study.

f. Percentage of students retained in any year level of same program after three years of study.

g. Percentage of students retained in any year level irrespective of program of study after one year of study.

h. Percentage of students retained in any year level irrespective of program of study after two years of study.

i. Percentage of students retained in any year level irrespective of program of study after three years of study.

j. Retention and graduation rates for students in part-time programs.

k. Percentage of baccalaureate-seeking new students admitted directly from secondary school retained in any year level of any program after one year of study (CSRDE definition).

l. Percentage of baccalaureate-seeking new students admitted directly from secondary school retained in any year level of any program after two years of study (CSRDE definition).

m. Percentage of baccalaureate-seeking new students admitted directly from secondary school retained in any year level of any program after three years of study (CSRDE definition).

n. Percentage of baccalaureate-seeking new students admitted directly from secondary school who graduated within six years (CSRDE definition).

Direct Indicator of:	*Related to* :
• student academic success	• student support systems and services • curriculum, teaching, and course delivery • academically well-qualified students

Comments :

These indicators help to gauge the level of student academic success and rates of progression through the program. It can be affected by academic promotion policy and other factors. The method of calculation for Indicators 5k to 5n follows that developed by the Consortium for Student Retention Data Exchange (CSRDE) and is widely used in North America.

Notes

1. Based on Toronto Metropolitan University's student information system data.

2. The percentages shown above are calculated by dividing the number of newly admitted year 1 students who had a CLEAR standing at the end of the winter term by the total number of newly admitted year 1 students. For example, in Fall 2024 there were 9,384 students who were new to Toronto Metropolitan University and in year 1. Of these, 7,856 (or 83.7%) had a CLEAR standing at the end of the 2024/25 academic year.

3. Zero values are shown as blanks. Blank cells are the result of cohorts with a very small number of students. Cells with "n/a" indicate faculties/programs that were either discontinued or had yet to begin.

4. The increase in the percentage clear after 1 year for the 2019-20 cohort is largely due to the change in academic standing policy during the COVID-19 pandemic.

Notes

1. Newly-admitted students in first-year level of degree programs who were registered with a full-time course load on 1 November. Includes students in part-time programs if they had a full-time course load.
2. Students who graduated with any Toronto Metropolitan University degree during the calendar years shown.
3. "n/a" denotes that a program did not exist in a given year or that no students in a particular program met the conditions described in note 1.
4. "." denotes entries that are not shown at the program level but which are used at the faculty level and higher.
5. The MCU methodology excludes advanced standing students admitted within the identified timeframe.

Notes

1. Newly-admitted students in first-year level of degree programs who were registered with a full-time course load on 1 November. Includes students in part-time programs if they had a full-time course load.

2. Students who graduated with any Toronto Metropolitan University degree during the calendar years shown.

3. "n/a" denotes that a program did not exist in a given year or that no students in a particular program met the conditions described in note 1.

4. The MCU methodology excludes advanced standing students admitted within the identified timeframe.

Notes

1. Newly-admitted students in first-year level of degree programs who were registered with a full-time course load on 1 November. Includes students in part-time programs if they had a full-time course load.

2. Students who graduated with any Toronto Metropolitan Univesrity degree during the calendar years shown.

3. "n/a" denotes that a program did not exist in a given year or that no students in a particular program met the conditions described in note 1.

4. The MCU methodology excludes advanced standing students admitted within the identified timeframe.

Notes

1. Data are shown for 10 cohorts of students dating from Fall 2015 to Fall 2024.
2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly admitted or not in first-year are excluded.
3. The table shows the percentage of students who registered (irrespective of course load) in the same program in the Fall academic term one year(s) later (identified on the line marked "Retained in:"). For example, 82.6% of newly-admitted students registered with a full-time load in first-year at TMU in Fall 2024 were registered in the same program one year(s) later in Fall 2025.
4. For co-op programs with a fall work term, the winter term has been substituted when making the retention calculation.
5. "n/a" denotes that a program did not exist in a given year.

Notes

1. Data are shown for 10 cohorts of students dating from Fall 2014 to Fall 2023.
2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly admitted or not in first-year are excluded.
3. The table shows the percentage of students who registered (irrespective of course load) in the same program in the Fall academic term two year(s) later (identified on the line marked "Retained in:"). For example, 75.1% of newly-admitted students registered with a full-time load in first-year at TMU in Fall 2023 were registered in the same program two year(s) later in Fall 2025.
4. For co-op programs with a fall work term, the winter term has been substituted when making the retention calculation.
5. "n/a" denotes that a program did not exist in a given year.

Notes

1. Data are shown for 10 cohorts of students dating from Fall 2015 to Fall 2024.
2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly admitted or not in first-year are excluded.
3. The table shows the percentage of students who registered (irrespective of course load) in the same program in the Fall academic term one year(s) later (identified on the line marked "Retained in:"). For example, 88.6% of newly-admitted students registered with a full-time load in first-year at TMU in Fall 2024 were registered in the same program one year(s) later in Fall 2025.
4. For co-op programs with a fall work term, the winter term has been substituted when making the retention calculation.
5. "n/a" denotes that a program did not exist in a given year.

Notes

1. Data are shown for 10 cohorts of students dating from Fall 2014 to Fall 2023.
2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly admitted or not in first-year are excluded.
3. The table shows the percentage of students who registered (irrespective of course load) in the same program in the Fall academic term two year(s) later (identified on the line marked "Retained in:"). For example, 84.2% of newly-admitted students registered with a full-time load in first-year at TMU in Fall 2023 were registered in the same program two year(s) later in Fall 2025.
4. For co-op programs with a fall work term, the winter term has been substituted when making the retention calculation.
5. "n/a" denotes that a program did not exist in a given year.

Notes

1. Data are shown for 10 cohorts of students dating from Fall 2013 to Fall 2022.
2. A student is included in the cohort if registered with a full-time load in the academic term (shown on line marked "Cohort:"). Students who are not newly admitted or not in first-year are excluded.
3. The table shows the percentage of students who registered (irrespective of course load) in the same program in the Fall academic term three year(s) later (identified on the line marked "Retained in:"). For example, 80.7% of newly-admitted students registered with a full-time load in first-year at TMU in Fall 2022 were registered in the same program three year(s) later in Fall 2025.
4. For co-op programs with a fall work term, the winter term has been substituted when making the retention calculation.
5. "n/a" denotes that a program did not exist in a given year.

Indicator 5j1										
Reported for part-time programs	Percentage of students retained (excluding those who graduated) in any year level after one year of study

Notes
1. Data are shown for ten cohorts of students from 2014/15 to 2023/24.
2. The headcounts of new registrants in part-time programs include students who have enrolled in previous academic terms as Continuing Education students, but exclude students transferring to a part-time program from a full-time program.
3. The table shows the percentage of students who registered (irrespective of course load) in any term one academic year later, identified on the line "Retained in:". For example, 88.0% of newly-admitted students registered in a part-time program in the academic year 2023/24 were registered in the 2024/25 academic year.
4. Students who graduated after one year of study have been removed from the cohort so as to accurately reflect the retention rates.
5. Cells with "n/a" indicate that either a program did not exist in a given year or that no new students were admitted that year.

Notes

1. Data are shown for ten cohorts of students from 2012/13 to 2021/22.

2. The headcounts of new registrants in part-time programs include students who have enrolled in previous academic terms as Continuing Education students, but exclude students transferring to a part-time program from a full-time program.

3. The table shows the percentage of students who registered (irrespective of course load) in any term three academic years later, identified on the line "Retained in:". For example, 61.1% of newly-admitted students registered in a part-time program in the academic year 2021/22 were registered in the 2024/25 academic year.

4. Students who graduated after three years of study have been removed from the cohort so as to accurately reflect the retention rates.

5. Cells with "n/a" indicate that either a program did not exist in a given year or that no new students were admitted that year.

Reported for part-time programs	Percentage of students retained (excluding those who graduated) in any year level after four years of study

Notes

1. A student is included in the cohort if newly admitted from a secondary school into first year and registered with a full-time load in the academic term marked Cohort. Students who are not newly admitted or not in first year are excluded.

2. The table shows the percentage of students who registered (irrespective of course load) in the Fall academic term identified on the line marked Retained in. For example, 83.7% of students newly admitted from a secondary school into first year on a full-time load at TMU in Fall 2022 were registered three year(s) later in Fall 2025.

3. "n/a" denotes that a program did not exist for a given year.

Indicator 5n										
Reported for four-year, full-time, first-entry programs only	Percentage of baccalaureate-seeking new students admitted directly from secondary school who graduated within six years (CSRDE Definition)

Notes

1. A student is included in the cohort if newly admitted from a secondary school into first year and registered with a full-time load in the academic term marked "Cohort". Students who are not newly admitted or not in first year are excluded.

2. This table indicates that, for example, 79.7% of students newly admitted from secondary school in Fall 2019 into first year and on a full-time load at TMU graduated within six years.

3. "n/a" denotes that a program did not exist for a given year.

Indicator 6: Class Size	
Distribution of class sizes.	
Direct Indicator of:	**Related to:**
• student-faculty interaction • course delivery	• high quality student experience
Comments:	
While the relationship between class size and academic success is an item of some controversy, the percentage of classes and sections in different size ranges provides useful information about the nature of student-faculty interaction at Toronto Metropolitan University. Due to the COVID-19 pandemic, class sizes for Fall 2020 and Fall 2021 have not been included because they are not comparable to previous years.	

Indicator 7: Scholarships and Bursaries	
a. Scholarships and bursaries: total awards. *b. Scholarships and bursaries: percentage of total operating expenditures.*	
Direct Indicator of:	**Related to:**
• objective of reducing financial barriers and maintaining accessibility • academically well-qualified students	• student support systems and services

Indicator 8: Library and Student Services	
a. Library expenditures as a percentage of total operating expenditures. *b. Library acquisitions as a percentage of library operating expenditures.* *c. Library expenditures in dollars per FFTE.* *d. Student services expenditures in dollars per FFTE.*	
Direct Indicator of:	**Related to:**
• student support systems and services • learning support facilities	• program quality and success • student academic success
Comments:	
Various ways of assessing aspects of our learning supports and resources.	

Indicator 6	Class Size (CUDO Method)									

Fall 2014

Note
1. Uses identical methodology as that for Maclean's Survey of Canadian Universities.

Indicator 9: Faculty Background [Discontinued, Fall 2020]	
a. *Percentage of total faculty and percentage of new hires with PhD or other terminal degree.* b. *Percentage of new hires with directly related experience in the professional field.*	
Direct Indicator of:	***Related to:***
• objective to attract and retain highly qualified faculty	• scholarly, research and creative (SRC) capacity and productivity • program quality and success • quality of the student experience

Comments*:*

Indicates our level of progress in hiring faculty both with typical university-level academic qualifications and with the professionally-related experience so important to Toronto Metropolitan University's mission.

Issues*:*

Indicator 9a shows the highest educational background by type of credential for total faculty and new hires as two tables on separate pages. Calculation of Indicator 9b has been deferred because new data collection would be required to measure directly-related experience in the professional field on a consistent basis.

Indicator 9	Percentage of total faculty with specified highest educational background (October 2010)

Notes

1. Based on Human Resources data and supplementary information.

2. Includes hires between October 2, 2018 and October 1, 2019.

3. Departments in which there were no new hires during the period above are excluded.

4. Zero values are shown as blanks.

5. Faculty members with a Bachelor of Law degree are counted in the Bachelor's column.

Indicator 10: Scholarly, Research and Creative Activities (SRC) Funding
a. Total number and value of externally funded SRC projects.
b. Percentage of faculty with funded SRC activity.

Direct Indicator of:	*Related to* :
• SRC capacity and productivity	• objective to attract and retain qualified faculty

Comments :
Provides an indication of both competitiveness in SRC grant competitions and the breadth of SRC activity within Toronto Metropolitan University.

Issues :
For externally adjudicated and externally funded grants, indicators showing the number of grants per Mode II faculty member and the dollar value of grants per Mode II faculty member have been constructed. It should be noted Mode I faculty members have been excluded because SRC is not a requirement for Mode I faculty, and because there are very few Mode I faculty remaining at TMU.

Indicator 10	Externally funded and externally adjudicated number of grants and dollar amount of grants per Mode II faculty member					
	2015/16		2016/17		2017/18

Notes

1. Based on background and supplementary data from the Office of the Vice-President Research & Innovation.
2. "n/a" denotes that a teaching deipartment did not exist for a given year.
3. Grants included are those for which adjudication and funding are external to TMU.
4. Includes grants from the federal granting agencies: Social Sciences and Humanities Research (SSHRC), Canadian Institutes of Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), Communications Research Centre Canada (CRC), Canada Foundation for Innovation (CFI), and grants awarded via federal granting agencies to the Networks of Centres of Excellence (NCE).
5. Includes grants from the provincial granting agencies: Ontario Centres of Excellence (OCE).
6. Includes both federal and provincial government contracts and grants.
7. Includes corporate and business grants and other grants if both adjudication and funding are external to TMU.
8. Deans have been assigned to their home departments.

Notes

1. Based on background and supplementary data from the Office of the Vice-President Research & Innovation.
2. Grants included are those for which adjudication and funding are external to TMU.
3. Includes grants from the federal granting agencies: Social Sciences and Humanities Research (SSHRC), Canadian Institutes of Health Research (CIHR), Natural Sciences and Engineering Research Council (NSERC), Communications Research Centre Canada (CRC), Canada Foundation for Innovation (CFI), and grants awarded via federal granting agencies to the Networks of Centres of Excellence (NCE).
4. Includes grants from the provincial granting agencies: Ontario Centres of Excellence (OCE).
5. Includes both federal and provincial government contracts and grants.
6. Includes corporate and business grants and other grants if both adjudication and funding are external to TMU.
7. Deans have been assigned to their home departments.

8. Deans have been assigned to their home departments.

Indicator 11: Student to Faculty Ratio	
Ratio of total students (FFTE) to total teaching faculty (FTE) with CE excluded from both parts of the calculation.	
Direct Indicator of:	*Related to* :
• quality of student experience	• high quality student-faculty interaction • appropriate course delivery and high quality teaching • SRC capacity and productivity
Comments : A general quantitative indicator of faculty resources.	
Related statistics : • Gender distribution of total tenured and tenure-track teaching faculty and gender distribution of new tenure-track hires	
Comments : Calculation of other related statistics (with the exception of gender distribution) has been deferred.	

Indicator 11										
	Ratio of fiscal full-time equivalent enrolment (FFTE) to full-time equivalent faculty (FTE) by teaching department

Notes

1. Student full-time equivalent data from TMU's student information system. Faculty data from HR and includes active TFA and CUPE instructors. Deans and Professors of Distinction have been excluded from the faculty counts. Associate Deans have been included.

2. Both undergraduate and graduate degree enrolments included in calculations. All CE students and all teaching by CE to undergraduate degree students has been excluded.

3. Undergraduate FFTE are based on teaching in Fall and Winter terms. Graduate FTE have been converted to undergraduate equivalents (i.e., three terms divided by two).

Notes

1. Based on Human Resources Department data as of Oct 1 of a given year.

2. Deans and Associate Deans are excluded from the counts.

3. A column for other gender identity is not shown because records for all faculty show male or female at this time.

2. Deans and Associate Deans are excluded from the counts.
3. A column for other gender identity is not shown because records for all faculty show male or female at this time

Indicator 12: Scholarly, Research and Creative Activities (SRC) Output
 a. Number of faculty with peer-reviewed publications (papers, monographs, chapters), and total number of peer reviewed publications.
 b. Number of juried exhibits/installations, or performed/produced creative works, per faculty member in relevant schools/departments.
 c. Number of faculty with non peer-reviewed, academically related publications, and total number of such publications.

Direct Indicator of:	*Related to*:
• SRC capacity and productivity	• objective of attracting highly qualified faculty

Comments:

These indicators augment conventional university research measures in order to reflect Toronto Metropolitan University's SRC philosophy. These require new means of assembling information and are not yet in place.

Issues:

Calculation deferred. The types of indicators envisaged in this section are highly time-intensive if these are to be calculated on a consistent basis across the University.

Indicator 13: Teaching-related Research
 Number of faculty who have published teaching-related research or presented teaching-related conference papers in the past three years.

Direct Indicator of:	*Related to*:
• commitment to quality teaching • SRC productivity • conduct SRC to the benefit of students	• curriculum and course delivery

Comments:

A particular type of SRC focussed on pedagogical innovation and enhancement.

Issues:

Calculation deferred. The data necessary are not presently collected.

Indicator 14: Graduating Undergraduate Student Satisfaction

Graduating Student Survey: Percentage of students graduating from undergraduate programs who are "satisfied" with their university experience, and percentage who would recommend Toronto Metropolitan University to others:
   a. teaching
   b. curriculum
   c. career preparation
   d. Toronto Metropolitan University as a whole

Direct Indicator of:	*Related to:*
• graduating student satisfaction in each of the specified areas	• quality of the student experience • program quality and success • student support systems and services

Comments:

Extracted from the existing tri-annual survey of graduating students.

Issues:

The survey of graduating undergraduate students is conducted as part of Toronto Metropolitan University's participation in the Canadian University Survey Consortium (CUSC).

Notes

1. Based on Toronto Metropolitan University data from Canadian University Survey Consortium, Survey of Graduating Students 2009.
2. Column headed "Respondents" shows the number of students who completed the questionnaire.
3. Reported for full-time programs.
4. Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "Yes" column. The actual value for the population is estimated to fall within this interval 19 times out of 20 but is not shown for instances where the rate in the sample is 100%. For example, between 83.6% and 87.2% of students who applied to graduate would recommend Toronto Metropolitan University to others.

Notes

1. Based on Toronto Metropolitan University data from Canadian University Survey Consortium, Survey of Graduating Students 2015.

2. Column headed "Respondents" shows the number of students who completed the questionnaire.

3. Reported for full-time programs.

4. Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "yes" column. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the rate in the sample is 100%. For example, between 83.7% and 86.5% of students who applied to graduate would recommend Toronto Metropolitan University to others.

Notes
1. Based on Toronto Met data from Canadian Undergraduate Survey Consortium, Survey of Graduating Students 2018.
2. Column headed "Respondents" shows the number of students who completed the questionnaire.
3. Reported for full-time programs.
4. Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "6 or higher" column. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the rate in the sample is 100%. For example, between 79.5% and 82.7% of students who applied to graduate would recommend Toronto Met to others.
5. The Survey of Graduating Students is done once every three years. Starting in 2018, students were asked "How likely are you to recommend this university to others?". Students were given a scale of 0 (not at all likely to recommend) to 10 (extremely likely to recommend).

Indicator 14	Graduating Student Satisfaction: Undergraduate Class of 2021						
	How likely are you to recommend Toronto Metropolitan University to others (scale 0-10)			Satisfaction with overall quality of education received at Toronto Metropolitan University

Notes

1. Based on Toronto Met data from Canadian Undergraduate Survey Consortium (CUSC), Survey of Graduating Students 2021.

2. Column headed "Respondents" shows the number of students who completed the questionnaire.

3. Reported for full-time programs.

4. Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "6 or higher" column. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the rate in the sample is 100%. For example, between 77.6% and 80.2% of students who applied to graduate would recommend Toronto Met to others.

5. The Survey of Graduating Students is done once every three years. Starting in 2018, students were asked "How likely are you to recommend this university to others?". Students were given a scale of 0 (not at all likely to recommend) to 10 (extremely likely to recommend).

Indicator 14	Graduating Student Satisfaction: Undergraduate Class of 2024							
		How likely are you to recommend Toronto Metropolitan University to others (scale 0-10)			Satisfaction with overall quality of education received at Toronto Metropolitan University

Notes
1. Based on Toronto Metropolitan University data from Canadian Undergraduate Survey Consortium (CUSC), Survey of Graduating Students 2024.
2. Column headed "Respondents" shows the number of students who completed the questionnaire.
3. Reported for full-time, first entry programs.
4. Column headed "+/- Error" estimates the magnitude of error associated with each survey result shown in the "6 or higher" column. The actual value for the population is estimated to fall within this interval nineteen times out of twenty but is not shown for instances where the rate in the sample is 100%. For example, between 72.1% and 75.5% of students who applied to graduate would recommend Toronto Metropolitan University to others.
5. The Survey of Graduating Students is done once every three years. Starting in 2018, students were asked "How likely are you to recommend this university to others?". Students were given a scale of 0 (not at all likely to recommend) to 10 (extremely likely to recommend).
6. Results are suppressed for programs whose number of respondents is 5 or less. These results are still included in the overall totals by Faculty, so adding up numbers for a given Faculty's programs may produce a lower total than the Faculty shows.

Indicator 15: Student Satisfaction

Student Survey: % indicating "satisfied" or "very satisfied" with (for illustrative purpose only; see comment below) :
a. teaching
b. curriculum
c. career preparation
d. Toronto Metropolitan University as a whole

Direct Indicator of:	*Related to*:
• student satisfaction in each of the specified areas	• quality of the student experience • program quality and success student support systems and services

Comments:

The extent of overlap between Indicators 14 and 15 is under review.

Indicator 16: Applications to Registrants Ratios (Graduate Studies)	
Direct Indicator of :	*Related to* :
• academically well-qualified student body • societal need (student demand component)	• student academic success • program quality and success • quality of student experience
Comments : This indicator reflects Toronto Metropolitan University's image and profile, and that of its graduate programs, among prospective students.	
Related statistics : • Gender distribution of student body • Percentage of students from outside the GTA; from other provinces; international

Notes
1. Based on TMU's student information system.
2. The category "Another Gender Identity" includes not stated.

Indicator 17: Completion Rates (Graduate Studies) *a. Completion rates after one, two, three and four years of study for full-time Master's programs.* *b. Completion rates after four, five, and six years of study for part-time Master's programs.* *c. Average time to completion for both full- and part-time Master's programs.* *d. Completion rates for Doctoral Programs.* *e. Average time to completion for Doctoral Programs.*	
Direct Indicator of:	*Related to* :
• student academic success	• student support systems and services • curriculum, teaching, and course delivery • academically well-qualified students
Comments : This indicator helps to gauge the rates of progression through the program and can be affected by academic promotion policy and other factors.

Notes

1. The analysis includes any students who entered the graduate programs listed with a full-time load in Spring 2014, Fall 2014, or Winter 2015.

2. Cells with a " - " indicate that there were no graduates within that period or that the cohort did not have any students.

Notes

1. The analysis includes any students who entered the graduate programs listed with a full-time load in Spring 2018, Fall 2018, or Winter 2019.

2. Cells with a " - " indicate that there were no graduates within that period or that the cohort did not have any students.

Reported for students who entered in 2019-20 into full-time graduate programs	Cohort	Completers after One Year	Completers after Two Years	Completers after Three Years	Completers after Four Years	Completion Rate after One Year	Completion Rate after Two Years	Completion Rate after Three Years	Completion Rate after Four Years

Notes

1. The analysis includes any students who entered the graduate programs listed with a full-time load in Spring 2020, Fall 2020, or Winter 2021.

2. Cells with a " - " indicate that there were no graduates within that period or that the cohort did not have any students.

Indicator 17a						
Reported for students who entered in 2021-22 into full-time graduate programs	Graduate Studies: Completion rates after one, two or three years of study for students entering in 2021-22					
	Cohort	Completers after One Year	Completers after Two Years	Completers after Three Years	Completion Rate after One Year	Completion Rate after Two Years	Completion Rate after Three Years

Notes

1. Cells with a " - " indicate that either a program did not exist in that year or there were no graduates. For example, the Criminology & Social Justice program did not begin until fall 2017. No students who started the Nurse Practitioner program in 2017-18 had graduated within 4 years.

2. Average time to completion is calculated by counting the number of terms between a student's starting term and their last active term. For example, a student who starts a full-time masters program in Fall 2020 and is registered until they graduate in Fall 2022 would have a time to completion of 2 years (6 terms / 3 terms per year).

Indicator 17c	Graduate Studies: Completion rates after four, five or six years of study for students entering in 2013-14

Notes

1. The analysis includes any students who entered the graduate programs listed with a part-time load in Spring 2013, Fall 2013, or Winter 2014.

2. Cells with a " - " indicate that there were no graduates within that period or that the cohort did not have any students.

Immigration & Settlement Studies	1.8	2.0	3.0	2.3	2.0

Notes

1. Cells with a " - " indicate that either a program did not exist in that year or there were no graduates. For example, the Child & Youth Care program did not have an intake in 2015-16.

2. Average time to completion is calculated by counting the number of terms between a student's starting term and their last active term. For example, a student who starts a part-time masters program in Fall 2018 and is registered every other term until their graduation in Fall 2022 would have a time to completion of 4 years (12 terms / 3 terms per year).

Indicator 17e									
	Graduate Studies: Completion rates after four, five, six and seven years of study for students entering in 2014-15								
Reported for students who entered in 2014-15 into Doctoral programs	Cohort	Completers after 4 Years	Completers after 5 Years	Completers after 6 Years	Completers after 7 Years	Completion Rate after Four Year(s)	Completion Rate after Five Year(s)	Completion Rate after Six Year(s)	Completion Rate after Seven Year(s)

Notes

1. Cells with a " - " indicate that either a program did not exist in that year or there were no graduates.

2. Average time to completion is calculated by counting the number of terms between a student's starting cohort and their last active term. For example, a student who starts a doctoral program in Fall 2017 and is registered until they graduate in Fall 2021 would have a time to complete of 4 years (12 terms / 3 terms per year).

Indicator 18: Graduate Retention
a. Percentage of students retained in same program after one year of study for two year full-time Master's programs.
b. Percentage of students retained in any program after one year of study for two year full- time Master's programs.
c. Percentage of students retained in same program after one year of study for full-time Doctoral programs.
d. Percentage of students retained in same program after two years of study for full-time Doctoral programs.
e. Percentage of students retained in same program after three years of study for full-time Doctoral programs.
f. Percentage of students retained in any program after one year of study for full-time Doctoral programs
g. Percentage of students retained in any program after two years of study for full-time Doctoral programs.
h. Percentage of students retained in any program after three years of study for full-time Doctoral programs.

Direct Indicator of:	*Related to* :
• student academic success	• student support systems and services • curriculum, teaching, and course delivery • academically well-qualified students

Comments :
These indicators help to gauge the level of student academic success and rates of progression through the program. It can be affected by academic promotion policy and other factors.

Reported for two year, full-time programs only — Percentage of students retained in same program after one year of study

Notes
1. Based on TMU student information system data.
2. A student is included in the cohort the first term they enrol as a full-time Master's student at TMU. Students who have graduated from the program within one year are removed from the cohort for this calculation.
3. The table shows the percentage of students who were registered in any Master's program one year later. (identified on the line marked "Retained in:"). For example, 92.7% of newly-admitted students registered at TMU in 2023-24 were registered in the same Master's program one year later.

Reported for two year, full-time programs only — Percentage of students retained in any program after one year of study

Notes

1. Based on TMU student information system data.

2. A student is included in the cohort the first fall term they enrol as a Doctoral student at TMU. Students who switch programs are not included in two cohorts.

3. The table shows the percentage of students who registered in the same Doctoral program one year later (identified on the line marked "Retained in:").

For example, 95.1% of newly-admitted students registered at TMU in Fall 2023 were registered in the same program one year later in 2024/25.

Notes

1. Based on TMU student information system data.

2. A student is included in the cohort the first fall term they enrol as a Doctoral student at TMU. Students who switch programs are not included in two cohorts.

3. The table shows the percentage of students who registered in the same Doctoral program two years later (identified on the line marked "Retained in:").

For example, 91.2% of newly-admitted students registered at TMU in Fall 2022 were registered in the same program two years later in 2024/25.

Notes

1. Based on TMU student information system data.

2. A student is included in the cohort the first fall term they enrol as a Doctoral student at TMU. Students who switch programs are not included in two cohorts.

3. The table shows the percentage of students who registered in any Doctoral program three years later (identified on the line marked "Retained in:").

For example, 83.8% of newly-admitted students registered at TMU in Fall 2020 were registered in any program three years later in 2024/25.
