GREEN INFRASTRUCTURE STUDENT HACKATHON

October 28th-30th, 2016

Councillor Janet Davis, City of Toronto said, "I think what Ryerson Urban Water is achieving by holding this hackathon is fabulous. The student solutions are terrific."

Jennifer Keesmat, Chief Planner of the City of Toronto met with the winning team and stated, "All three of your designs are brilliant. They are really public art designs. Just brilliant."

"The importance of this event can't be overstated. ... [The students] demonstrated to me that they weren't afraid to throw out the rules and focus on the performance-driven ideas. ...It was inspiring to see such enthusiasm and great ideas." — Steve van Haren, Manager, Water Resources, WSP
