Research Matters...

FOR CHILDREN

In every community in Canada there is childcare, schools, therapy, and healthcare for all kids!

But making our services fit isn't always as easy as it sounds!

This book is about what we have learned from families.

Let's learn together!

Your Opinion Matters...

FOR CHILDREN

Did you know talking about what I want and need really helped me?

All I said was that they can't make decisions and leave us out!

You Matter...

FOR CHILDREN

I have the right...

...to choose the people who care about me...

...and what I want to take part in!

Disability Matters...

FOR CHILDREN

I am many things!

Disability is an important part of my identity.

Your Health and Learning Matter...

FOR CHILDREN

You should feel good about who you are when you are in your community.

We have the right to access services that support the way our gifts shine.

No one should feel left out!
